

Consolidated Financial Statements of Group Companies

UNIT 1 : INTRODUCTION

1.1 Concept of Group, Holding Company and Subsidiary Company

It is an era of business growth. Many organizations are growing into large corporations by the process of acquisition, mergers, gaining control by one company over the other company, restructuring etc. Acquisition and mergers ultimately leads to either cost reduction or controlling the market or sharing the material supplies or product diversification or availing tax benefits or synergy. Whatever the motto behind these ventures is, the ultimate result is the large scale corporation. Formation of holding company is the most popular device for achieving these objectives.

Group of companies: Many a times, company expands by keeping intact their separate corporate identity. In this situation, a company (holding company) gains control over the other company (subsidiary company). This significant control is exercised by one company over the other by-

1. Purchasing specified number of shares or
2. Exercising control over the board of directors or on voting power of that company.

Unit of companies connected in these ways is collectively called a **Group of Companies**.

Holding Company and Subsidiary Company have been defined in Section 2 of the Companies Act, 2013.

Holding company:

As per Clause 46 of Section 2 of the Companies Act, 2013,

“Holding company”, in relation to one or more other companies, means a company of which such companies are subsidiary companies.

It may be defined as one, which has one or more subsidiary companies and enjoys control over them. Legally a holding company and its subsidiaries are distinct and separate entities. However, in substance holding and subsidiary companies work as a group. Accordingly, users of holding company accounts need financial information of subsidiaries to understand the performance and financial position of the holding company.

5.2 Financial Reporting

Subsidiary Company:

Section 2(87) of the Companies Act, 2013 defines "subsidiary company" as a company in which the holding company -

- (i) controls the composition of the Board of Directors; or
- (ii) exercises or controls more than one-half of the total share capital either at its own or together with one or more of its subsidiary companies:

A company shall be deemed to be a subsidiary company of the holding company even if there is indirect control through the subsidiary company (ies).

The control over the composition of a subsidiary company's Board of Directors means exercise of some power to appoint or remove all or a majority of the directors of the subsidiary company.

'Total share capital', as defined in section 2(87) (ii) above, has been further clarified by the Rule 2(1)(r) of the Companies (Specification of Definitions Details) Rules, 2016. As per the Rule, total share capital includes

- (a) paid up equity share capital
- (b) convertible preference share capital.

Section 19 of the Companies Act, 2013 prohibits a subsidiary company from holding shares in the holding company. According to this section, no company shall, either by itself or through its nominees, hold any shares in its holding company and no holding company shall allot or transfer its shares to any of its subsidiary companies and any such allotment or transfer of shares of a company to its subsidiary company shall be void.

However, a subsidiary may continue to be a member of its holding company when

- (a) the subsidiary company holds such shares as the legal representative of a deceased member of the holding co.
- (b) the subsidiary company holds such shares as a trustee; or
- (c) the subsidiary company is a shareholder even before it became a subsidiary company of the holding company.

The subsidiary company shall have a right to vote at a meeting of the holding company only in respect of the shares held by it as a legal representative or as a trustee,

In case (c) mentioned above, the subsidiary shall not have any voting rights in respect of the shares held.

1.2 Wholly Owned and Partly Owned Subsidiaries

S.No.	Wholly owned subsidiary company	Partly owned subsidiary company
1.	A wholly owned subsidiary company is one in which all the shares are owned by the holding	In a partly owned subsidiary, all the shares of subsidiary company are not acquired by the holding company i.e.

	company.	only the majority of shares (i.e., more than 50%) are owned by the holding company.
2.	100% voting rights are vested by the holding company.	Voting rights of more than 50% but less than 100% are vested by the holding company.
3.	There is no minority interest because all the shares with voting rights are held by the holding company.	There is a minority interest because less than 50% shares with voting rights are held by outsiders other than the holding company.

1.3 Purpose of Preparing the Consolidated Financial Statements

Section 129 (Clause 3) of the Companies Act, 2013 mandated the companies having one or more subsidiaries, to prepare Consolidated Financial Statements. According to this section, where a company has one or more subsidiaries, it shall, in addition to separate financial statements will prepare a consolidated financial statement of the company and of all the subsidiaries in the same form and manner as that of its own. It shall also attach along with its financial statements, a separate statement containing the salient features of the financial statement of its subsidiary or subsidiaries in the prescribed form. For the purpose of section 129, 'subsidiary' includes 'Associate company' and 'Joint venture'.

Also as per the AS 21, where an enterprise does not have a subsidiary but has an associate and/or a joint venture such an enterprise should also prepare consolidated financial statements in accordance with Accounting Standard (AS) 23, Accounting for Associates in Consolidated Financial Statements, and Accounting Standard (AS) 27, Financial Reporting of Interests in Joint Ventures respectively.

Consolidated financial statements are the financial statements of a 'group' presented as those of a single enterprise, where a 'group' refers to a parent and all its subsidiaries. Parent company needs to inform the users about the financial position and results of operations of not only of their enterprise itself but also of the group as a whole. For this purpose, consolidated financial statements are prepared and presented by a parent/holding enterprise to provide financial information about a parent and its subsidiary(ies) as a single economic entity.

Consolidated Financial Statements are intended to show the financial position of the group as a whole - by showing the economic resources controlled by them, by presenting the obligations of the group and the results the group achieves with its resources.

Where a company is required to prepare Consolidated Financial Statements, i.e., consolidated balance sheet and consolidated statement of profit and loss, the company shall mutatis mutandis follow the requirements of the Schedule III as applicable to a company in the preparation of balance sheet and statement of profit and loss. In addition, the consolidated financial statements shall disclose the information as per the requirements specified in the applicable Accounting Standards including the following:

5.4 Financial Reporting

- (i) Profit or loss attributable to “minority interest” and to owners of the parent in the statement of profit and loss shall be presented as allocation for the period.
- (ii) “Minority interests” in the balance sheet within equity shall be presented separately from the equity of the owners of the parent.

Schedule III to the Companies Act, 2013 contains the ‘General Instructions for Preparation of Consolidated Financial Statements’. Students are advised to refer the same from Schedule III which has been given as appendix at the end of the Study Material (Module I).

Accounting Standard (AS) 21 also lays down the accounting principles and procedures for preparation and presentation of consolidated financial statements.

1.4 Exclusion from Preparation of Consolidated Financial Statements

As per AS 21, a subsidiary should be excluded from consolidation when:

- (a) control is intended to be temporary because the subsidiary is acquired and held exclusively with a view to its subsequent disposal in the near future; or
- (b) it operates under severe long-term restrictions which significantly impair its ability to transfer funds to the parent.

In consolidated financial statements, investments in such subsidiaries should be accounted for in accordance with AS 13 ‘Accounting for Investments’. The reasons for not consolidating a subsidiary should be disclosed in the consolidated financial statements.

However, if the relevant investment is acquired without an intention to its subsequent disposal in near future, and subsequently, it is decided to dispose off the investments, such an investment is not excluded from consolidation, until the investment is actually disposed off.

Conversely, if the relevant investment is acquired with an intention to its subsequent disposal in near future, but, due to some valid reasons, it could not be disposed off within that period, the same will continue to be excluded from consolidation, provided there is no change in the intention.

Exclusion of a subsidiary from consolidation on the ground that its business activities are dissimilar from those of the other enterprises within the group is not justified because better information is provided by consolidating such subsidiaries and disclosing additional information in the consolidated financial statements about the different business activities of subsidiaries. For example, the disclosures required by AS 17 ‘Segment Reporting’, help to explain the significance of different business activities within the group.

1.5 Consolidation of its subsidiary which is a Limited Liability Partnership (LLP) or a partnership firm

As per rule 6 of Companies (Accounts) Rules, 2014, under the heading ‘Manner of consolidation of accounts’ it is provided that consolidation of financial statements of a company shall be done in accordance with the provisions of Schedule III to the Companies Act, 2013 and the applicable Accounting Standards.

It is noted that relevant Indian Accounting Standard i.e., Ind AS 110, Consolidated Financial Statements provides that where an entity has control on one or more other entities, the controlling entity is required to consolidate all the controlled entities. Since, the word 'entity' includes a company as well as any other form of entity, therefore, LLPs and partnership firms are required to be consolidated. Similarly, under Accounting Standard (AS) 21, as per the definition of subsidiary, an enterprise controlled by the parent is required to be consolidated. The term 'enterprise' includes a company and any enterprise other than a company. Therefore, under AS also, LLPs and partnership firms are required to be consolidated.

Accordingly, in the given case, holding company is required to consolidate its subsidiary which is an LLP or a partnership firm.

1.6 Consolidation of Limited Liability Partnership (LLP) which is an associate or joint venture

If LLP or a partnership firm is an associate or joint venture of holding company, even then the LLP and the partnership firm need to be consolidated in accordance with the requirements of applicable Accounting Standards.

UNIT 2: CONSOLIDATED FINANCIAL STATEMENTS

2.1 Advantages of Consolidated Financial Statements

As per AS 21, "Consolidated financial statements are the financial statements of a group presented as those of a single enterprise". The main advantages of consolidation are given below:

- (i) **Single Source Document:** From the consolidated financial statements, the users of accounts can get an overall picture of the holding company and its subsidiaries. Consolidated Profit and Loss Account gives the overall profitability of the group
- (ii) **Intrinsic value of share:** Intrinsic share value of the holding company can be calculated directly from the Consolidated Balance Sheet.
- (iii) **Return on Investments in Subsidiaries:** The holding company controls its subsidiary. So its return on investments in subsidiaries should not be measured in terms of dividend alone. Consolidated Financial Statements provide information for identifying revenue profit for determining return on investment.
- (iv) **Acquisition of Subsidiary:** The Minority Interest data of the Consolidated Financial Statement indicates the amount payable to the outside shareholders of the subsidiary company at book value which is used as the starting point of bargaining at the time of acquisition of a subsidiary by the holding company.
- (v) **Evaluation of Holding Company in the market:** The overall financial health of the holding company can be judged using Consolidated Financial Statements. Those who want to invest in the shares of the holding company or acquire it, need such consolidated statement for evaluation.

2.2 Components of Consolidated Financial Statements

Accounting Standard 21, 'Consolidated Financial Statements' should be applied in the preparation and presentation of consolidated financial statements for a group of enterprises under the control of a parent.

As per AS 21, consolidated financial statements normally include

- ◆ Consolidated Balance Sheet
- ◆ Consolidated Statement of Profit and Loss Account
- ◆ Consolidated Cash Flow Statement (in case parent presents cash flow statement)
- ◆ Notes and statements and explanatory schedules that form the integral part thereof.

The consolidated financial statements are presented to the extent possible in the same format as that adopted by the parent for its separate financial statements.

All the notes appearing in the separate financial statements of the parent enterprise and its subsidiaries need not be included in the notes to the consolidated financial statement. For preparing consolidated financial statements, the following principles may be observed in respect of notes and other explanatory material that form an integral part thereof:

- (a) Notes which are necessary for presenting a true and fair view of the consolidated financial statements are included in the consolidated financial statements as an integral part thereof.
- (b) Only the notes involving items which are material need to be disclosed. Materiality for this purpose is assessed in relation to the information contained in consolidated financial statements. In view of this, it is possible that certain notes which are disclosed in separate financial statements of a parent or a subsidiary would not be required to be disclosed in the consolidated financial statements when the test of materiality is applied in the context of consolidated financial statements.
- (c) Additional statutory information disclosed in separate financial statements of the subsidiary and/or a parent having no bearing on the true and fair view of the consolidated financial statements need not be disclosed in the consolidated financial statements.

Illustrative list of 'Notes to the separate financial statements' of the parent and/or the subsidiary, which in general should need not be included in the consolidated financial statements are given at the end of AS 21 for better understanding.

2.3 Consolidation Procedures

Rule 6 of the Companies (Accounts) Rules, 2014 states that the manner of consolidation of financial statements of the company shall be in accordance with the provisions of Schedule III of the Act and the applicable accounting standards. AS 21, lays down the procedure for consolidation of financial statements of the companies within the group.

When preparing consolidated financial statements, the individual balances of the parent and its subsidiaries are aggregated on a line-by-line basis, and then certain consolidation adjustments are made.

For example, the cash, trade receivables and prepayments of the parent and each subsidiary are added together to arrive at the cash, trade receivables and prepayments of the group, before consolidation adjustments are made.

The objective is that the consolidated financial statements should present the information contained in the consolidated financial statements of a parent and its subsidiaries as if they were the financial statements of a single economic entity.

In order that the consolidated financial statements present financial information about the group as that of a single enterprise, the following steps are then taken:

1. the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary are eliminated. In case cost of acquisition exceeds or is less than the acquirer's interest, goodwill or capital reserve is calculated retrospectively.
2. intragroup transactions, including sales, expenses and dividends, are eliminated, in full;
3. unrealised profits resulting from intragroup transactions that are included in the carrying amount of assets, such as inventory and fixed assets, are eliminated in full;
4. unrealised losses resulting from intragroup transactions that are deducted in arriving at the carrying amount of assets are also eliminated unless cost cannot be recovered;

5.8 Financial Reporting

5. minority interest in the net income of consolidated subsidiaries for the reporting period are identified and adjusted against the income of the group in order to arrive at the net income attributable to the owners of the parent; and
6. minority interests in the net assets of consolidated subsidiaries are identified and presented in the consolidated balance sheet separately from liabilities and the parent shareholders' equity.

2.4 Calculation of Goodwill/Capital Reserve (Cost of Control)

As on the date of investment, the cost of investment and the equity in the subsidiary needs to be calculated. AS 21 defines equity as the 'residual interest in the assets of an enterprise after deducting all its liabilities.' In other words, it is equal to the net worth of the enterprise.

Once the above is calculated, goodwill or capital reserve is calculated as under:

Goodwill = Cost of Investment - Parent's share in the equity of the subsidiary on date of investment
--

Capital Reserve = Parent's share in the equity of the subsidiary on date of investment - Cost of investment

The parent's portion of equity in a subsidiary, at the date on which investment is made, is determined on the basis of information contained in the financial statements of the subsidiary as on the date of investment.

However, if the financial statements of a subsidiary as on the date of investment are not available and if it is impracticable to draw the financial statements of the subsidiary as on that date, financial statements of the subsidiary for the immediately preceding period are used as a basis for consolidation.

Adjustments are made to these financial statements for the effects of significant transactions or other events that occur between the date of such financial statements and the date of investment in the subsidiary.

It may be mentioned that positive or negative differential is separately recognised only in purchase method. This differential calculated as cost of control is shown in the consolidated balance sheet.

Example:

1. H Ltd. acquires 70% of the equity shares of S Ltd. on 1st January, 2017. On that date, paid up capital of S Ltd. was 10,000 equity shares of ₹ 10 each; accumulated reserve balance was ₹ 1,00,000. H Ltd. paid ₹ 1,60,000 to acquire 70% interest in the S Ltd. Assets of S Ltd. were revalued on 1.1.2017 and a revaluation loss of ₹ 20,000 was ascertained. The book value of shares of S Ltd. is calculated as shown below:

	₹
70% of the Equity Share Capital ₹ 1,00,000	70,000
70% of Accumulated Reserve ₹ 1,00,000	70,000

70% of Revaluation Loss ₹ 20,000	(14,000)
	<u>1,26,000</u>

So, H Ltd. paid a positive differential of ₹ 34,000 i.e ₹ (1,60,000 – 1,26,000). This differential is also called goodwill and is shown in the balance sheet under the head intangibles.

2. A Ltd. acquired 70% interest in B Ltd. on 1.1.2017. On that date, B Ltd. had paid-up capital of ₹ 1,00,000 consisting of 10,000 equity shares of ₹ 10 each and accumulated balance in reserve and surplus of ₹ 1,00,000. On that date, assets and liabilities of B Ltd. were also revalued and revaluation profit of ₹ 20,000 were calculated. A Ltd. paid ₹ 1,30,000 to purchase the said interest.

In this case, the book value of Shares of B Ltd. is calculated as shown below:

	₹
70% of the Equity Share Capital ₹ 1,00,000	70,000
70% of Reserves and Surplus ₹ 1,00,000	70,000
70% of Revaluation Profit ₹ 20,000	<u>14,000</u>
	<u>1,54,000</u>

So, H Ltd. enjoyed negative differential of ₹ 24,000 i.e. (1,54,000 – 1,30,000).

Illustration 1

Exe Ltd. acquires 70% of equity shares of Zed Ltd. as on 31st March, 2017 at a cost of ₹ 70 lakhs. The following information is available from the balance sheet of Zed Ltd. as on 31st March, 2017:

	₹ in lakhs
<i>Fixed Assets</i>	120
<i>Investments</i>	55
<i>Current Assets</i>	70
<i>Loans & Advances</i>	15
<i>15% Debentures</i>	90
<i>Current Liabilities</i>	50

The following revaluations have been agreed upon (not included in the above figures):

<i>Fixed Assets</i>	<i>Up by 20%</i>
<i>Investments</i>	<i>Down by 10%</i>

Zed Ltd. declared and paid dividend @ 20% on its equity shares as on 31st March, 2017. Exe Ltd. purchased the shares of Zed Ltd. @ ₹ 20 per share.

Calculate the amount of goodwill/capital reserve on acquisition of shares of Zed Ltd.

5.10 Financial Reporting

Solution

Revalued net assets of Zed Ltd. as on 31st March, 2017

	₹ in lakhs	₹ in lakhs
Fixed Assets [120 X 120%]		144.0
Investments [55 X 90%]		49.5
Current Assets		70.0
Loans and Advances		<u>15.0</u>
Total Assets after revaluation		278.5
Less: 15% Debentures	90.0	
Current Liabilities	<u>50.0</u>	<u>(140.0)</u>
Equity / Net Worth		<u>138.5</u>
Exe Ltd.'s share of net assets (70%)		96.95
Exe Ltd.'s cost of acquisition of shares of Zed Ltd. (₹ 70 lakhs – ₹ 7 lakhs*)		<u>63.00</u>
Capital reserve		<u>33.95</u>

* Total Cost of 70 % Equity of Zed Ltd	₹ 70 lakhs
Purchase Price of each share	₹ 20
Number of shares purchased [70/20]	3.5 lakhs
Dividend @ 20 % i.e. ₹ 2 per share	₹ 7 lakhs

Since dividend received is for pre-acquisition period, it has been reduced from the cost of investment in the subsidiary company.

Illustration 2

Variety Ltd. holds 46% of the paid-up share capital of VR Ltd. The shares were acquired at a market price of ₹ 17 per share. The balance of shares of VR Ltd. are held by a foreign collaborating company. A memorandum of understanding has been entered into with the foreign company providing for the following:

- The shares held by the foreign company will be sold to Variety Ltd. The price per share will be calculated by capitalising the yield at 15%. Yield, for this purpose, would mean 40% of the average of pre-tax profits for the last 3 years, which were ₹ 30 lakhs, ₹ 40 lakhs and ₹ 65 lakhs.*
- The actual cost of the shares to the foreign company was ₹ 5,40,000 only. The profit that would accrue to them would be taxable at an average rate of 30%. The tax payable will be deducted from the proceeds and Variety Ltd. will pay it to the Government.*
- Out of the net consideration, 50% would be remitted to the foreign company immediately and the balance will be an unsecured loan repayable after two years.*

The above agreement was approved by all concerned for being given effect to on 1.4.2017. The total assets of VR Ltd. as on 31st March, 2017 was ₹ 1,00,00,000. It was decided to write down fixed assets by ₹ 1,75,000. Current liabilities of VR Ltd. as on the same date were ₹ 20,00,000. The paid-up share capital of VR Ltd. was ₹ 20,00,000 divided into 2,00,000 equity shares of ₹ 10 each.

Find out goodwill/capital reserve to Variety Ltd. on acquiring wholly the shares of VR Ltd.

Solution

(1) Computation of purchase consideration:

(a)	Yield of VR Ltd.: $\left[\frac{40}{100} \times \frac{30 + 40 + 65}{3} \right]$	₹ 18 Lakhs
(b)	Price per share of VR Ltd. Capitalised yield $\left[\frac{18 \text{ lakhs}}{0.15} \right]$	₹ 120 lakhs
	Number of shares	2,00,000
	Price per share	₹ 60
(c)	Purchase consideration for 54% shares in VR Ltd. $2,00,000 \times \frac{54}{100} \times ₹ 60$	₹ 64.80
(d)	Discharge of purchase consideration:	
	Tax deducted at source $(₹ 64.80 \text{ lakhs} - ₹ 5.40 \text{ lakhs}) \times \frac{30}{100}$	₹ 17.82
	50% of purchase consideration (net of tax) in cash $(₹ 64.80 - 17.82) \times 50\%$	₹ 23.49
	Balance – Unsecured Loan	₹ 23.49

(2) Goodwill/Capital Reserve to Variety Ltd.:

	₹ in lakhs	
Total Assets		100.00
Less: Reduction in value of Fixed Assets		<u>(1.75)</u>
		98.25
Less: Current Liabilities		<u>(20.00)</u>
Net Assets		78.25
Purchase consideration	64.80	
Investments $[2,00,000 \times 46\% \times ₹ 17]$	<u>15.64</u>	<u>(80.44)</u>
Goodwill		<u>2.19</u>

2.5 Minority Interests

Minority interest is that part of the net results of operations and of net assets of a subsidiary attributable to interests which are not owned, directly or indirectly through subsidiaries, by the

5.12 Financial Reporting

holding (parent) company.

In short, minority interest represents the claims of the outside shareholders of a subsidiary. Minority interests in the net income of consolidated subsidiaries for the reporting period are identified and adjusted against the income of the group in order to arrive at the net income attributable to the shareholders of the holding company.

Minority interest in the income of the group should be separately presented.

The losses applicable to the minority in a consolidated subsidiary may exceed the minority interest in the equity of the subsidiary. The excess, and any further losses applicable to the minority, are adjusted against the majority interest except to the extent that the minority has a binding obligation to, and is able to make good the losses. If the subsidiary subsequently reports profit, all such profits are allocated to the majority interest until the minority's share of losses previously absorbed by the majority has been recovered.

As per para 13(e) of AS 21, minority interest in the net assets of consolidated subsidiaries should be identified and presented in the consolidated balance sheet separately from liabilities and the equity of the parent's shareholders. Minority interest in the net assets consist of:

- (i) the amount of equity attributable to minorities at the date on which investment in a subsidiary is made; and
- (ii) the minorities share of movements in equity since the date the parent-subsidiary relationship came in existence.

2.6 Profit or Loss of Subsidiary Company

The losses applicable to the minority in a consolidated subsidiary may exceed the minority interest in the equity of the subsidiary. The excess, and any further losses applicable to the minority, are adjusted against the majority interest except to the extent that the minority has a binding obligation to, and is able to, make good the losses. If the subsidiary subsequently reports profits, all such profits are allocated to the majority interest until the minority's share of losses previously absorbed by the majority has been recovered.

For the purpose of consolidated balance sheet preparation, all reserves and profits (or losses) of subsidiary company should be classified into **pre and post-acquisition reserves and profits (or losses)**.

Profits (or losses) earned (or incurred) by subsidiary company upto the date of acquisition of the shares by the holding company are pre acquisition or capital profits (or loss).

Similarly, all reserves of subsidiary company upto the date of acquisition are capital reserves from the view point of holding company. If the holding interest in subsidiary is acquired during the middle or some other period of the current year, pre-acquisition profit should be calculated accordingly.

The minority interest in the reserves and profits (or losses) of subsidiary company should be transferred to minority interest account which will also include share capital of subsidiary company held by outsiders / minority shareholders.

Minority Interest:

= Share Capital of subsidiary related to outsiders + Minority interest in reserves and profits of subsidiary company

The holding company's interest in the pre-acquisition reserves and profits (or losses) should be adjusted against cost of control to find out goodwill or capital reserve on consolidation. The balance of reserves and profits (or loss) of subsidiary company, representing holding company's interest in post-acquisition or revenue reserves and profits (or losses), should be added to the balances of reserves and profits (or losses) of holding company.

Illustration 3

A Ltd. acquired 70% of equity shares of B Ltd. on 1.4.2010 at cost of ₹ 10,00,000 when B Ltd. had an equity share capital of ₹ 10,00,000 and reserves and surplus of ₹ 80,000. In the four consecutive years, B Ltd. fared badly and suffered losses of ₹ 2,50,000, ₹ 4,00,000, ₹ 5,00,000 and ₹ 1,20,000 respectively. Thereafter in 2014-13, B Ltd. experienced turnaround and registered an annual profit of ₹ 50,000. In the next two years i.e. 2015-16 and 2016-17, B Ltd. recorded annual profits of ₹ 1,00,000 and ₹ 1,50,000 respectively. Show the minority interests and cost of control at the end of each year for the purpose of consolidation.

Solution

As per para 26 of AS 21 "Consolidated Financial Statements", the losses applicable to the minority in a consolidated subsidiary may exceed the minority interest in the equity of the subsidiary. The excess, and any further losses applicable to the minority, are adjusted against the majority interest except to the extent that the minority has a binding obligation to, and is able to, make good the losses. If the subsidiary subsequently reports profits, all such profits are allocated to the majority interest until the minority's share of losses previously absorbed by the majority has been recovered. Accordingly,

Year	Profit/(Loss)	Minority Interest (30%)	Additional Consolidated P & L (Dr.) Cr.	Minority's Share of losses borne by A Ltd.		Cost of Control
				₹	Balance	
At the time of acquisition in 2010		3,24,000 (W.N.)	-			
2010-11	(2,50,000)	<u>(75,000)</u>	(1,75,000)			2,44,000 (W.N.)
2011-12	(4,00,000)	<u>2,49,000</u> <u>(1,20,000)</u>	(2,80,000)			2,44,000
2012-13	- (5,00,000)	<u>1,29,000</u> <u>(1,50,000)</u>				2,44,000
	Loss of minority borne	(21,000) <u>21,000</u>	(3,50,000) <u>(21,000)</u>	21,000	21,000	

5.14 Financial Reporting

	by Holding Co.					
2013-14	(1,20,000)	Nil - (on application of para 26 of AS 21)	<u>(3,71,000)</u> (1,20,000)	36,000	57,000	2,44,000
2014-15	50,000	Nil - (on application of para 26 of AS 21)	50,000	(15,000)	42,000	2,44,000
2015-16	1,00,000	Nil - (on application of para 26 of AS 21)	1,00,000	(30,000)	12,000	2,44,000
2016-17	1,50,000	Nil 45,000 <u>(12,000)</u> (application of para 26) 33,000	1,05,000 <u>12,000</u> 1,17,000	(12,000)	Nil	2,44,000

Working Note:

Calculation of Minority interest and Cost of control on 1.1.2010

		Share of Holding Co.	Minority Interest
	100%	70%	30%
	(₹)	(₹)	(₹)
Share Capital	10,00,000	7,00,000	3,00,000
Reserve	80,000	<u>56,000</u>	<u>24,000</u>
		7,56,000	<u>3,24,000</u>
Less: Cost of investment		<u>(10,00,000)</u>	
Goodwill		<u>2,44,000</u>	

2.7 Revaluation of Assets of Subsidiary Company

Profit or loss on revaluation of fixed assets of subsidiary should also be treated as capital profit or loss. But if the fall in the value of the asset occurs after the date of acquisition, the loss

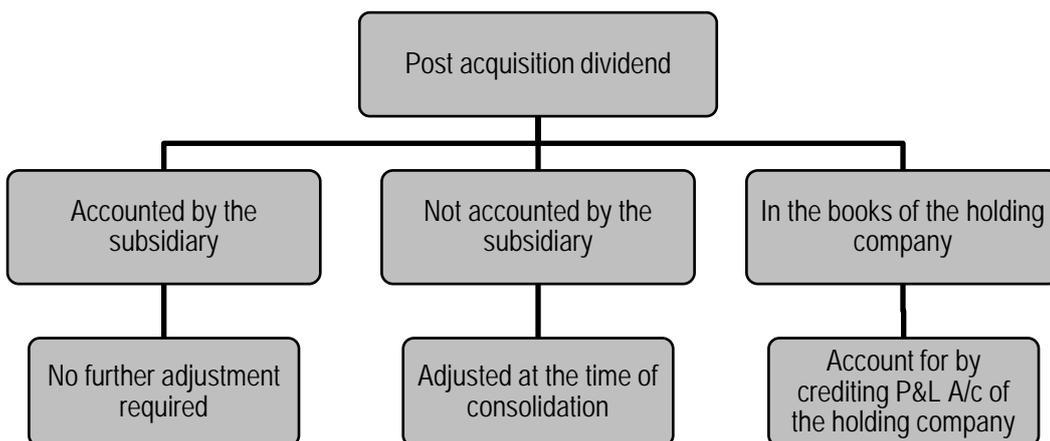

should be treated as revenue loss. Adjustment for depreciation would be made in the profit and loss account of the subsidiary.

Depreciation on changed value of the assets shall be given effect to. Depreciation on revalued assets will be taken as capital or revenue depending on the period for which the depreciation belongs

2.8 Dividend Received From Subsidiary Companies

The holding company, when it receives a dividend from a subsidiary company, must distinguish between the part received out of capital profits and that out of revenue profits - the former is credited to Investment Account, it being a capital receipt, and the later is adjusted as revenue income for being credited to the Profit & Loss Account. It must be understood that the term 'capital profit', in this context, apart from the generic meaning of the term, connotes profit earned by the subsidiary company till the date of acquisition. As a result, profits which may be of revenue nature for the subsidiary company may be capital profits so far as the holding company is concerned. If the controlling interest was acquired during the course of a year, profit for that year must be apportioned into the pre-acquisition and post-acquisition portions, on the basis of time in the absence of information on the point.

Treatment in case of post-acquisition dividend

Treatment in case of pre-acquisition dividend

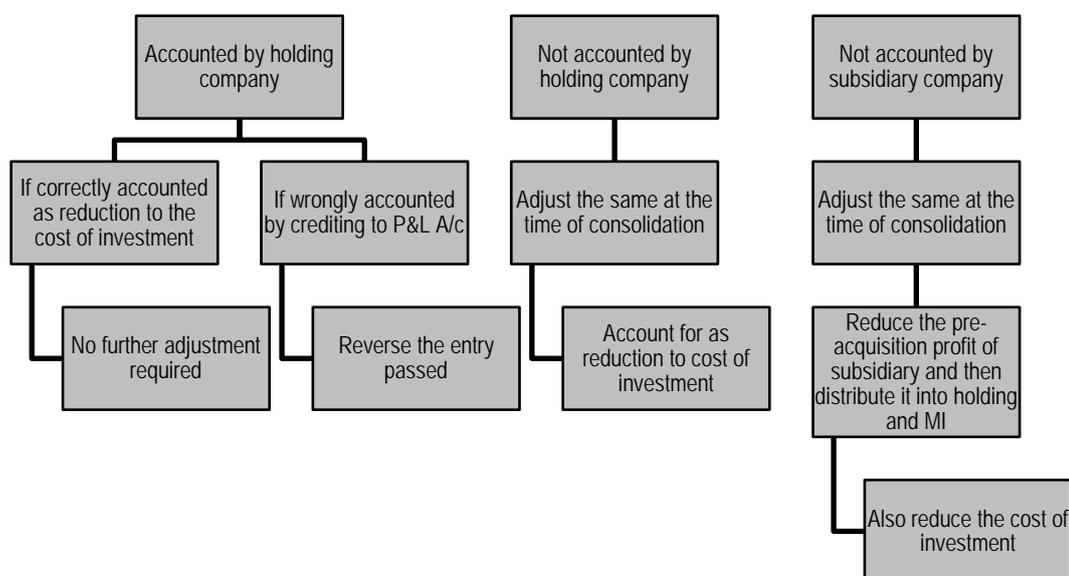

Illustration 4

H Ltd. acquired 3,000 shares in S Ltd., at a cost of ₹ 4,80,000 on 1st August, 2016. The capital of S Ltd. consisted of 5,000 shares of ₹ 100 each fully paid. The Profit & Loss Account of this company for 2016 showed an opening balance of ₹ 1,25,000 and profit for the year of ₹ 3,00,000. At the end of the year, it declared a dividend of 40%. Record the entry in the books of H Ltd., in respect of the dividend.

Solution

The profits of S Ltd., have to be divided between capital and revenue profits from the point of view of the holding company.

	Capital Profit ₹		Revenue Profit ₹
Balance on 1.1.2016	1,25,000	—	
Profit for 2016 (3,00,000 × 7/12)	<u>1,75,000</u>	(3,00,000 × 5/12)	<u>1,25,000</u>
Total	3,00,000		1,25,000
Proportionate share of H Ltd. (3/5)	<u>1,80,000</u>		<u>75,000</u>

Total Dividend Declared = ₹ 5,00,000 X 40 % = ₹ 2,00,000

H Ltd's share in the dividend = ₹ 2,00,000 X 3/5 = ₹ 1,20,000

The treatment of the dividend of ₹ 1,20,000 received by H Ltd., will depend on the character of profits which have been utilised by S Ltd., to pay the dividend. There are four possibilities:

- (1) Earlier profits, included in the profit brought forward from the previous year have been used up first.

In that case, the dividend of ₹ 1,20,000 would be paid wholly out of capital or pre-acquisition profits. The entry in that case will be:

		₹	₹
Bank Account	Dr.	1,20,000	
To Investment Account			1,20,000

- (2) The profit for 2016 alone has been utilised to pay the dividend, and no part of the profit brought forward has been utilised for the purpose. The share of H Ltd., in profit for the first seven months of S Ltd., is ₹ 1,05,000 i.e., ₹ 1,75,000 × 3/5 and that the profit for the remaining five months is ₹ 75,000. The dividend of ₹ 1,20,000 will be adjusted in this ratio: ₹ 70,000 out of profits up to the 1st August and ₹ 50,000 out of profits after that date. The dividend out of profits subsequent to August 1st will be revenue income and that out of earlier profits capital receipt. Hence the entry:

		₹	₹
Bank	Dr.	1,20,000	
To Investment Account			70,000
To Profit and Loss Account			50,000

- (3) Later profits have been utilised first and then pre- acquisition profits. In such a case, the whole of ₹ 75,000 (share of H Ltd. in profits of S Ltd., after 1st August) would be received and treated as revenue income; the remaining dividend, ₹ 45,000 (₹ 1,20,000 less ₹ 75,000) would be capital receipt. The entry would be:

		₹	₹
Bank	Dr.	1,20,000	
To Investment Account			45,000
To Profit & Loss Account			75,000

- (4) The two profits, pre-and post-acquisition, have been used up proportionally. The ratio would be ₹ 1,80,000 : 75,000; $1,20,000 \times \frac{75,000}{2,55,000}$ would be revenue receipt and the remaining capital. The

entry would be:

		₹	₹
Bank	Dr.	1,20,000	
To Investment Account			84,706
To Profit & Loss Account			35,294

Notes:

- (1) Points (3) and (4) above can arise only if there is definite information about the profits utilised; in practice such treatment is rare.
- (2) The treatment outlined above in fact is not peculiar to holding companies-dividends received out of profits earned before purchase of investments normally also are credited to the Investment Account.

5.18 Financial Reporting

For instance, if shares in X Ltd., are purchased in January, 2016 and in April X Ltd., declares a dividend in respect of 2015, the dividend received by the holder of the shares correctly should not be treated as income but as capital receipt, and credited to Investment Account.

- (3) The holding company, like other holders, records no entry on issue of bonus shares by the subsidiary company - only the number of shares held is increased.

Illustration 5

From the following data, determine in each case:

- (1) Minority interest at the date of acquisition and at the date of consolidation.
- (2) Goodwill or Capital Reserve.
- (3) Amount of holding company's profit in the consolidated Balance Sheet assuming holding company's own Profit & Loss Account to be ₹ 2,00,000 in each case

Case	Subsidiary Company	% shares owned	Cost ₹	Date of acquisition		Consolidation Date	
				1.1.2016		31.12.2016	
				Share Capital ₹	Profit & Loss Account ₹	Share Capital ₹	Profit & Loss Account ₹
Case 1	A	90%	1,40,000	1,00,000	50,000	1,00,000	70,000
Case 2	B	85%	1,04,000	1,00,000	30,000	1,00,000	20,000
Case 3	C	80%	56,000	50,000	20,000	50,000	20,000
Case 4	D	100%	1,00,000	50,000	40,000	50,000	55,000

Solution

- (1) Minority Interest = Equity Attributable to minorities

Equity is the residual interest in the assets of an enterprise after deducting all its liabilities i.e. in this given case Share Capital + Profit & Loss A/c

	Minority % Shares Owned [E]	Minority interest as at the date of acquisition [E] x [A + B] ₹	Minority interest as at the date of consolidation [E] X [C + D] ₹
Case 1 [100-90]	10 %	15,000	17,000
Case 2 [100-85]	15 %	19,500	18,000
Case 3 [100-80]	20 %	14,000	14,000
Case 4 [100-100]	NIL	Nil	Nil

(2) Calculation of Goodwill or Capital Reserve

	Shareholding % [F]	Cost [G]	Total Equity [A] + [B] = [H]	Parent's Portion of equity [F] x [H]	Goodwill ₹ [G] – [H]	Capital Reserve ₹ [H] – [G]
Case 1	90 %	1,40,000	1,50,000	1,35,000	5,000	—
Case 2	85 %	1,04,000	1,30,000	1,10,500	—	6,500
Case 3	80 %	56,000	70,000	56,000	Nil	Nil
Case 4	100 %	1,00,000	90,000	90,000	10,000	—

(3) The balance in the Profit & Loss Account on the date of acquisition (1.1.2016) is Capital Profit, as such the balance of Consolidated Profit & Loss Account shall be equal to Holding Co.'s Profit.

On 31.12.2016 in each case the following amount shall be added or deducted from the balance of holding Co.'s Profit & Loss Accounts.

	% Share holding [K]	P & L as on 31.12.2016 [L]	P & L as on consolidation date [M]	P & L post acquisition [N] = [M]-[L]	Amount to be added / (deducted) from holding's P & L [O] = [K] x [N]
1	90 %	50,000	70,000	20,000	18,000
2	85 %	30,000	20,000	(10,000)	(8,500)
3	80 %	20,000	20,000	NIL	NIL
4	100 %	40,000	55,000	15,000	15,000

Illustration 6

XYZ Ltd. purchased 80% shares of ABC Ltd. on 1st January, 2016 for ₹ 1,40,000. The issued capital of ABC Ltd., on 1st January, 2016 was ₹ 1,00,000 and the balance in the Profit & Loss Account was ₹ 60,000.

For the year ending on 31st December, 2016 ABC Ltd. has earned a profit of ₹ 20,000 and at the same time, declared and paid a dividend of ₹ 30,000.

Show by an entry how the dividend should be recorded in the books of XYZ Ltd.

What is the amount of minority interest as on 1st January, 2016 and 31st December, 2016?

Solution

Total Dividend Paid = ₹ 30,000

Out of post-acquisition profit = ₹ 20,000

Out of pre-acquisition profit = ₹ 10,000

Hence, 2/3rd of dividend received by XYZ will be credited to P & L and 1/3rd will be credited to Investments.

XYZ Ltd.'s share of dividend = ₹ 30,000 X 80% = ₹ 24,000

5.20 Financial Reporting

In the books of XYZ Ltd.

	₹	₹	₹
Bank A/c Dr.	24,000		
To Profit & Loss A/c		16,000	
To Investments in ABC Ltd.		8,000	
(Dividend received from ABC Ltd. 1/3 credited to investment A/c being out of capital profits – as explained above)			
<i>Goodwill on Consolidation:</i>		₹	₹
Cost of shares less dividend out of capital profits			1,32,000
Less: Face value of capital		80,000	
Add: Share of capital profits [60,000-10,000 (dividend portion)] X 80 %		<u>40,000</u>	<u>(1,20,000)</u>
Goodwill			<u>12,000</u>
Minority interest on: 1st January, 2016: 20% of ₹ 1,60,000 [1,00,000 + 60,000]			32,000
31st December, 2016: 20% of ₹ 1,50,000 [1,00,000 + 60,000 + 20,000 – 30,000]			30,000

Illustration 7

The following balances appear in the books of a Holding Co. and its subsidiary on the dates stated:

	Jan. 1 2014	Dec. 31 2014	Dec. 31 2015	Dec. 31 2016
<i>Holding Company</i>	₹	₹	₹	₹
Investments in Subsidiary	1,28,000	1,28,000	1,19,000	1,40,000
Profit & Loss Account (Balance)	1,35,000	1,60,000	1,48,000	1,55,000
<i>Subsidiary Company</i>				
Share Capital	1,00,000	1,00,000	1,00,000	1,00,000
Profit & Loss Account (Balance before providing for dividend)	50,000	62,000	70,000	80,000

Subsidiary's issued capital consisted of 1,000 equity shares of ₹ 100 each. The Holding Co. purchased 800 shares on 1st January, 2014. It sold 50 shares on 1st January, 2015 and purchased 100 shares on 1st January, 2016. The Investment Account was debited with the cost of shares purchased and credited with the sale proceeds. The holding Co. has made no other entries in the Investment Account and credited all dividends received to the Profit & Loss Account. The subsidiary company paid a dividend of 15% in March each year in respect of the previous year.

Prepare a statement showing the amount of goodwill/cost of control and minority interest at the end of each year.

Solution:
Statement showing Goodwill or Cost of Control as on

	31st Dec. 2014 ₹	31st Dec. 2015 ₹		31st Dec. 2016 ₹
Number of Shares held	800	750		850
% of Holding Co's shareholding	80 %	75 %		85 %
Cost of investment	1,28,000	1,16,000		1,08,750
Less: Dividend out of Capital Profit received on 31 st March 2014	<u>(12,000)</u>			
	1,16,000			
Less: Cost of investment sold on 1 st Jan 2015				
$\left[\frac{50}{800} \times 1,16,000 \right]$	—	(7,250)		
Add: Cost of investment purchased			21,000	
Less: Capital Dividend			<u>(1,500)*</u>	
(A)	<u>1,16,000</u>	<u>1,08,750</u>		<u>1,28,250</u>
Nominal Value of Shares	80,000	75,000		85,000
Capital Profit	<u>28,000</u>	<u>26,250</u>		<u>31,750**</u>
	[50,000 × 80 % - 12,000]	[50,000 - 15,000 (dividend of last year) × 75 %]		[50,000 - 15,000] × 75 % + [70,000 - 15,000] × 10 %
(B)	<u>1,08,000</u>	<u>1,01,250</u>		<u>1,16,750</u>
Goodwill (A-B)	<u>8,000</u>	<u>7,500</u>		<u>11,500</u>

Note: In 2016, ₹ 21,000 must have been spent since by that amount the book value of investment has gone up. [1,40,000 – 1,19,000]

Minority interest		Capital & Profits		
		₹	₹	₹
31st Dec. 2014	20%	20,000	12,400 [62,000 X 20 %]	= 32,400
31st Dec. 2015	25%	25,000	17,500 [70,000 X 25 %]	= 42,500
31st Dec. 2016	15%	15,000	12,000 [80,000 X 15%]	= 27,000

* Dividend out of Capital Profits

** Alternative Calculation:

10% of 20,000 i.e. profit earned and not yet distributed after Jan., 2014 till 31st Dec. 2015 (55,000-35,000) plus 85% of ₹ 35,000 profit remaining undistributed out of profits as on 1.1.2014

5.22 Financial Reporting

In a particular situation it may so happen that the losses applicable to the minority in a consolidated subsidiary exceed the minority interest in the equity of the subsidiary. Such excess and any further losses should be charged against majority interest. If the subsidiary company subsequently reports profits, such profits should be allocated to majority interest unless the minority's share of losses previously absorbed has been recovered.

Illustration 8

A Ltd. acquired 70% of equity shares of B Ltd. as on 1st January, 2010 at a cost of ₹ 10,00,000 when B Ltd. had an equity share capital of ₹ 10,00,000 and reserves and surplus of ₹ 80,000. Both the companies follow calendar year as the accounting year. In the four consecutive years B Ltd. fared badly and suffered losses of ₹ 2,50,000, 4,00,000, ₹ 5,00,000 and ₹ 1,20,000 respectively. Thereafter in 2014, B Ltd. experienced turnaround and registered an annual profit of ₹ 50,000. In the next two years i.e. 2015 and 2016, B Ltd. recorded annual profits of ₹ 1,00,000 and ₹ 1,50,000 respectively.

Show the minority interests and cost of control at the end of each year for the purpose of consolidation.

Solution

	Minority Interest (30%) ₹	Holding Interest (70%) ₹
Share of net assets of B Ltd. as on 1.1.2010	3,24,000	7,56,000
Cost of acquisition	—	<u>10,00,000</u>
	3,24,000	<u>2,44,000</u> (goodwill)
Minority's share of losses of B Ltd: year ended 31.12.2010	<u>75,000</u>	
Minority interest as on 31.12.2010	2,49,000	
Minority's share of losses of B Ltd.: year ended 31.12.2011	<u>1,20,000</u>	
Minority interest as on 31.12.2011	1,29,000	
Minority's share of losses of B Ltd. year ended 31.12.2012	<u>1,29,000*</u>	
Minority interest as on 31.12.2012	Nil	
Minority's share of losses for 2013	<u>Nil</u>	
Minority's share of profits of B Ltd. for 2014	<u>Nil</u>	
Minority's share of profit for 2015	<u>Nil</u>	
Minority's share of profit for 2016 (₹ 45,000 – ₹ 12,000)	33,000*	
Minority interest as on 31.12.2016	<u>33,000</u>	

* In the year 2012, the minority's share of losses actually comes to ₹ 1,50,000. But since minority interest as on 31.12.2011 was less than the share of loss, the excess of loss of ₹ 21,000 is to be added to A Ltd.'s share of losses. Similarly, for the year 2013, the entire loss of B Ltd. is to be adjusted against A Ltd.'s profits for the purpose of consolidation. Therefore, upto 2013, the minority's share of B Ltd.'s losses of ₹ 57,000 are to be borne by A Ltd. Thereafter, the entire profits of B Ltd. will be allocated to A Ltd. unless the minority's share of losses previously absorbed (₹57,000) has been recovered. Such recovery is fully made in 2016 and therefore minority interest of ₹ 33,000 is shown after adjusting fully the share of losses of minority previously absorbed by A Ltd.

2.9 Preparation of Consolidated Balance Sheet

While preparing the consolidated balance sheet, assets and outside liabilities of the subsidiary company are merged with those of the holding company. Share capital and reserves and surplus of subsidiary company are apportioned between holding company and minority shareholders. These items, along with investments of holding company in shares of subsidiary company are not separately shown in consolidated balance sheet. The net amounts resulting from various computations on these items, shown as (a) minority interest (b) cost of control (c) holding company's share in post-acquisition profits of the subsidiary company (added to appropriate concerned account of the holding company) are entered in consolidated balance sheet. The method of calculation of these items with detailed treatment of other relevant issues has been dealt with in various paras separately.

As per para 15 of AS 21, if an enterprise makes two or more investments in another enterprise at different dates and eventually obtain control of the other enterprise the consolidated financial statements are presented only from the date on which holding-subsidiary relationship comes in existence.

If two or more investments are made over a period of time, the equity of the subsidiary at the date of investment for the purposes of paragraph 13 of AS 21, is generally determined on a step-by-step basis; however, if small investments are made over a period of time and then an investment is made that results in control, the date of the latest investment, as a practicable measure, may be considered as the date of investment.

Illustration 9

From the following summarized balance sheets of H Ltd. and its subsidiary S Ltd. drawn up at 31st March, 2017, prepare a consolidated balance sheet as at that date, having regard to the following:

- Reserves and Profit and Loss Account of S Ltd. stood at ₹ 25,000 and ₹ 15,000 respectively on the date of acquisition of its 80% shares by H Ltd. on 1st April, 2016.
- Machinery (Book-value ₹ 1,00,000) and Furniture (Book value ₹ 20,000) of S Ltd. were revalued at ₹ 1,50,000 and ₹ 15,000 respectively on 1.4.2016 for the purpose of fixing the price of its shares. [Rates of depreciation: Machinery 10%, Furniture 15%.]

Summarised Balance Sheet of H Ltd. as on 31st March, 2017

	H Ltd.	S. Ltd.	Assets	H Ltd.	S Ltd.
	₹	₹		₹	₹
<i>Equity and Liabilities</i>			<i>Non-current assets</i>		
<i>Shareholders' funds</i>			<i>Fixed assets</i>

6. Cost of Control or Goodwill	
Paid-up value of 800 shares held by H Ltd. i.e. $800 \times ₹ 100$	80,000
<i>Add:</i> 4/5th share of pre-acquisition profits and reserves	32,000
4/5th share of profit on the revaluation	<u>36,000</u>
Intrinsic value of shares on the date of acquisition	<u>1,48,000</u>
Price paid up by H Ltd. for 800 shares	1,60,000
<i>Less:</i> Intrinsic value of the shares	<u>(1,48,000)</u>
Cost of control or Goodwill	12,000

2.10 Elimination of Intra-Group Transactions

In order to present financial statements for the group in a consolidated format, the effect of transactions between group enterprises should be eliminated. Para 16 of AS 21 states that intragroup balances and intragroup transactions and resulting unrealised profits should be eliminated in full. Unrealised losses resulting from intragroup transactions should also be eliminated unless cost cannot be recovered.

Liabilities due to one group enterprise by another will be set off against the corresponding asset in the other group enterprise's financial statements; sales made by one group enterprise to another should be excluded both from turnover and from cost of sales or the appropriate expense heading in the consolidated statement of profit and loss.

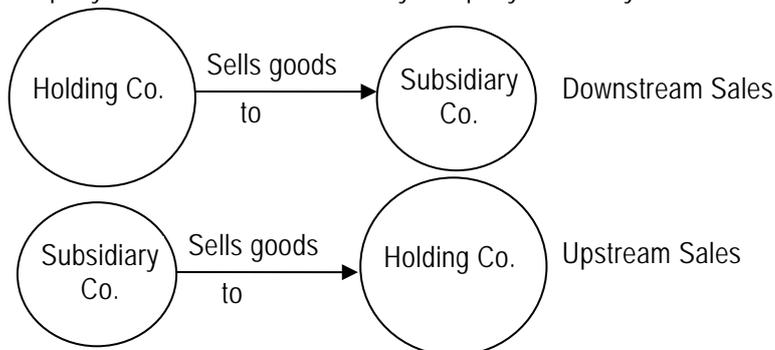

To the extent that the buying enterprise has further sold the goods in question to a third party, the eliminations to sales and cost of sales are all that is required, and no adjustments to consolidated profit or loss for the period, or to net assets, are needed. However, to the extent that the goods in question are still on hand at year end, they may be carried at an amount that

is in excess of cost to the group and the amount of the intra-group profit must be eliminated, and assets are reduced to cost to the group.

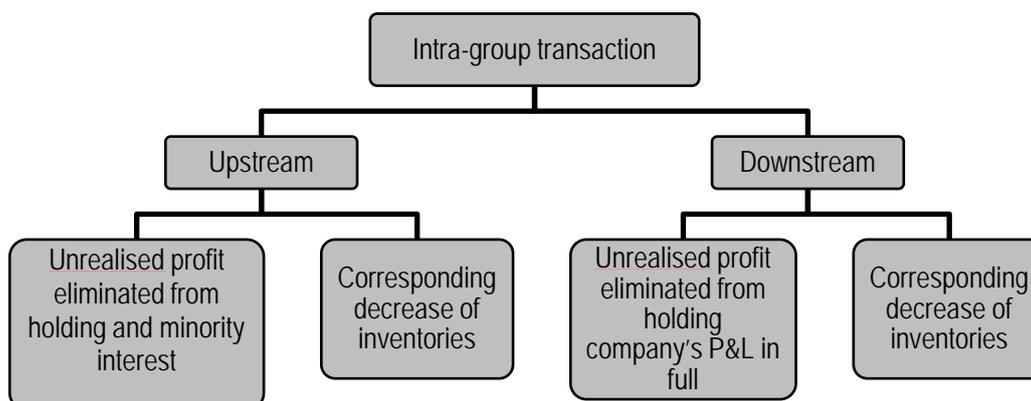

For transactions between group enterprises, unrealized profits resulting from intra-group transactions that are included in the carrying amount of assets, such as inventories and tangible fixed assets, are eliminated in full. The requirement to eliminate such profits in full applies to the transactions of all subsidiaries that are consolidated – even those in which the group’s interest is less than 100%.

Unrealised profit in inventories: Where a group enterprise sells goods to another, the selling enterprise, as a separate legal enterprise, records profits made on those sales. If these goods are still held in inventory by the buying enterprise at the year end, however, the profit recorded by the selling enterprise, when viewed from the standpoint of the group as a whole, has not yet been earned, and will not be earned until the goods are eventually sold outside the group. On consolidation, the unrealized profit on closing inventories will be eliminated from the group’s profit, and the closing inventories of the group will be recorded at cost to the group.

Here, the point to be noted is that one has to see whether the intragroup transaction is “upstream” or “down-stream”. **Upstream transaction** is a transaction in which the subsidiary company sells goods to holding company. While in the **downstream transaction** holding company is the seller and subsidiary company is the buyer.

In the case of upstream transaction, goods are sold by the subsidiary to holding company; profit is made by the subsidiary company, which is ultimately shared by the holding company and the minority shareholders. In such a transaction, if some goods remain unsold at the balance sheet date, the unrealized profit on such goods should be eliminated from minority interest as well as from consolidated profit on the basis of their share-holding besides deducting the same from unsold Inventory. But in the case of downstream transaction the whole profit is earned by the holding company, therefore whole unrealized profit should be adjusted from unsold Inventory account and consolidated profit and loss account only irrespective of the percentage of the shares held by the parent

Unrealised profit on transfer of non-current asset: Similar to the treatment described above for unrealized profits in inventories, unrealized inter-company profits arising from intra-group transfers of fixed assets are also eliminated from the consolidated financial statements.

Unrealised losses: Unrealised losses resulting from intra-group transactions that are deducted in arriving at the carrying amount of assets are also eliminated **unless cost cannot be recovered**.

2.11 Preparation of Consolidated Profit and Loss Account

Preparation of Consolidated Profit and Loss Account of holding company and its subsidiaries is not very difficult.

All the revenue items are to be added on line by line basis and from the consolidated revenue items inter-company transactions should be eliminated.

For example, a holding company may sell goods or services to its subsidiary, receives consultancy fees, commission, royalty etc. These items are included in sales and other income of the holding company and in the expense items of the subsidiary. Alternatively, the subsidiary may also sell goods or services to the holding company. These inter-company transactions are to be eliminated in full.

If there remains any unrealised profit in the Inventory of good, of any of the Group Company, such unrealised profit is to be eliminated from the value of Inventory to arrive at the consolidated profit.

Illustration 10

Given below are the Profit & Loss Account of H Ltd. and its subsidiary Ltd. for the year ended 31st March, 2017:

	H Ltd. (₹ in lacs)	S Ltd. (₹ in lacs)
<i>Incomes:</i>		
Sales and other income	5,000	1,000
Increase in Inventory	<u>1,000</u>	<u>200</u>
	<u>6,000</u>	<u>1,200</u>

<i>Expenses:</i>		
<i>Raw material consumed</i>	800	200
<i>Wages and Salaries</i>	800	150
<i>Production expenses</i>	200	100
<i>Administrative Expenses</i>	200	100
<i>Selling and Distribution Expenses</i>	200	50
<i>Interest</i>	100	50
<i>Depreciation</i>	<u>100</u>	<u>50</u>
	<u>2,400</u>	<u>700</u>
<i>Profit before tax</i>	3,600	500
<i>Provision for tax</i>	<u>1,200</u>	<u>200</u>
<i>Profit after tax</i>	2,400	300
<i>Dividend paid</i>	<u>1,200</u>	<u>150</u>
<i>Balance of Profit</i>	<u>1,200</u>	<u>150</u>

Other Information:

H Ltd. sold goods to S Ltd. of ₹ 120 lacs at cost plus 20%. Inventory of S Ltd. includes such goods valuing ₹ 24 lacs. Administrative Expenses of S Ltd. include ₹ 5 lacs paid to H Ltd. as consultancy fees. Selling and Distribution expenses of H Ltd. include ₹ 10 lacs paid to S Ltd. as commission.

H Ltd. holds 80% of equity share capital of ₹ 1,000 lacs in S Ltd. before 2015-2016. H Ltd. took credit to its Profit and Loss Account, the proportionate amount of dividend declared and paid by S Ltd. for the year 2015-2016.

Solution

**Consolidated Profit & Loss Account of H Ltd. and its subsidiary S Ltd.
for the year ended on 31st March, 2017**

Profit available for shareholders		35,000
Minority Share (20%)		7,000

2.12 Preparation of Consolidated Cash Flow Statement

A holding company has to prepare a consolidated cash flow statement if it is required to prepare cash flow statement.

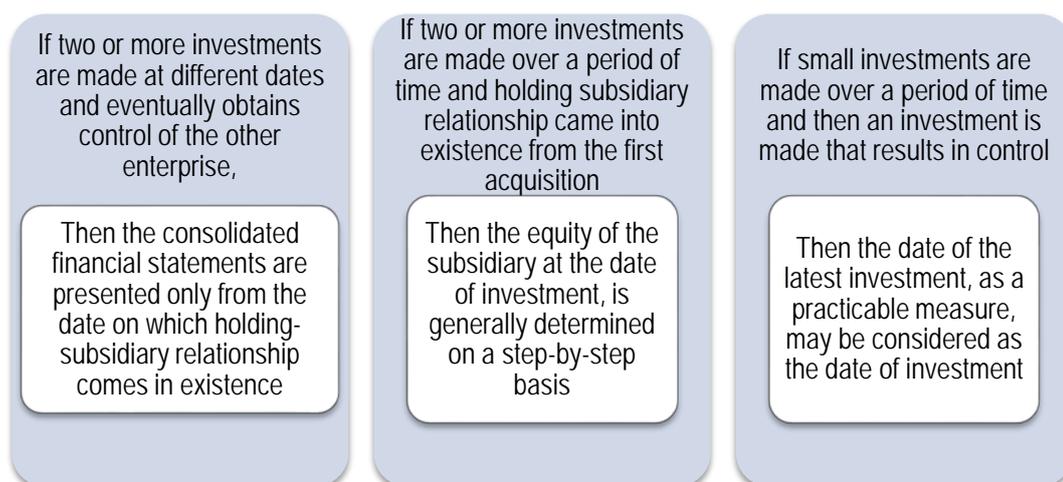

Same as Consolidated Profit and Loss account, the preparation of consolidated Cash flow statement is also not difficult. All the items of Cash flow from operating activities, investing activities and financing activities are to be added on line by line basis and from the consolidated items, inter-company transactions should be eliminated. Below given is the Consolidated Cash Flow Statement with hypothetical figures:

Consolidated Cash Flow Statement

	(₹ in million)		
	A Company	B Company	Total
Cash Flow from Operating Activities			
Change in Reserve	8	2	10
Change in P & L A/c	0	1	1
Dividend Paid	22		22
Tax Provision	20	1	21
Depreciation	10	5	15
Interest	<u>-10</u>	<u>10</u>	<u>0</u>
	50	19	69
Less: Tax payment	<u>-20</u>	<u>-1</u>	<u>-21</u>
	30	18	48

Purchase of fixed assets	<u>-30</u>	<u>-20</u>	<u>-50</u>
(B)	<u>0</u>	<u>-20</u>	<u>-20</u>
Cash Flow from Financing Activities	<u>-22</u>	<u>-10</u>	<u>-32</u>
(C)	<u>-22</u>	<u>-10</u>	<u>-32</u>
Net cash flows	<u>-5</u>	<u>0</u>	<u>-5</u>
(A+B+C)	<u>-5</u>	<u>0</u>	<u>-5</u>

2.13 Acquisition of Interest in Subsidiary at Different Dates

Often a holding company acquires a subsidiary in steps. As per para 15 of AS 21, "If an enterprise makes two or more investments in another enterprise at different dates and eventually obtains control of the other enterprise, the consolidated financial statements are presented only from the date on which holding-subsidiary relationship comes in existence. If two or more investments are made over a period of time, the equity of the subsidiary at the date of investment, is generally determined on a step-by-step basis; however, if small investments are made over a period of time and then an investment is made that results in control, the date of the latest investment, as a practicable measure, may be considered as the date of investment.

If two or more investments are made over a period of time and Lot 1 acquisition resulted in controlling interest, then steps to solve the question:

1. Take lot 1 date of acquisition as a base date
2. Classify the reserves and surplus into pre and post-acquisition
3. The revenue portion on the date of lot 1 along with any increase thereon till the date of acquisition of Lot 2 is capital profit for Lot 2
4. Deduct this figure from share of revenue profit of holding company
5. And add to the share of capital profit of holding company.

Illustration 12

'HIM' Limited is a company carrying on the business of beauty products and is having a subsidiary 'SIM' Limited. Their Balance-sheets as on 31st March 2016 were as under:

Equity and Liabilities	HIM Limited (₹)	SIM Limited (₹)
Shareholders' Funds		
Share Capital	25,00,000	5,80,000
Reserves and Surplus

Net Block	700	320
Investments	190	
Current Assets	<u>20</u>	<u>12</u>
Applications	<u>910</u>	<u>332</u>

Solution

In this case goodwill paid in acquiring cost of control should be computed step by step basis:

	₹ in million				
Goodwill	1-7-2016	1-10-2016	1-11-2016	Total	Minority Interest
Cost of investments (A)	<u>50</u>	<u>60</u>	<u>80</u>	<u>190</u>	
Book Value of Investments:					
Equity Share Capital	40	40	40	120.00	80
(200 X 20 %)		(200 X 20 %)	(200 X 20 %)		(200-120)
General Reserve 1-4-2016	12	12	12	36.00	24
(60 X 20 %)		(60 X 20 %)	(60 X 20 %)		(60-36)
Pre-acquisition profit of 2016-2017 WN 1	<u>3.6</u>	<u>7.2</u>	<u>8.40</u>	<u>19.20</u>	
(B)	<u>55.6</u>	<u>59.2</u>	<u>60.40</u>	<u>175.20</u>	
Cost of Control (A-B)	<u>-5.60</u>	<u>0.80</u>	<u>19.60</u>	<u>14.80</u>	
40% of post-acquisition reserve and profit					<u>28.80</u>
					<u>132.80</u>

Consolidated Profit & Loss a/c					
Balance of P & L A/c of H Ltd.					10
Share of current reserve [72 x 60 % - 19.2]					<u>24</u>
					<u>34</u>

Working Note:

Total Profit from 1-4-2016 to 31-03-2017 = 120 + 12 – 60 = 72 Million

Acquisition Date	Pre-acquisition Period	Pre-acquisition Duration [A]	% Holding [B]	Profit amount 72 x [A]/12 X [B]
1-7-2016	1-4-2016 to 1-7-2016	3 Months	20	3.6
1-10-2016	1-4-2016 to 1-10-2016	6 Months	20	7.2
1-11-2016	1-4-2016 to 1-11-2016	7 Months	20	8.4

**Consolidated Balance Sheet of H Ltd. and its Subsidiary S Ltd.
as at 31st March, 2017**

Particulars	Note No.	(₹ in million)
I. Equity and Liabilities		
(1) Shareholder's Funds		
(a) Share Capital		500.00
(b) Reserves and Surplus	1	434.00

Total		<u>1,066.80</u>
II. Assets		
(1) Non-current assets		
(a) Fixed assets		
(i) Tangible assets	2	1,020.00
(ii) Intangible assets (Goodwill)		14.80
(2) Current assets (20 + 12)		32.00
Total		<u>1,066.80</u>

Notes to Accounts

(₹ in million)		
1. Reserves and Surplus		
General reserve	400	
Profit and Loss A/c [As calculated above]	<u>34</u>	434.00
2. Tangible assets		
Gross Block		1,150.0

5.42 Financial Reporting

Less: Accumulated Depreciation		(130.0)
Net Block		1,020.0

Another situation may be that a parent company increases or decreases its stake in the subsidiary.

For example, H Ltd. acquired 70% of the equity shares in S Ltd. It further acquires 10% of the equity shares subsequently or sells 10% of the equity shares. In both the cases step by step method should be followed for measuring goodwill/capital reserve.

2.14 Uniform Accounting Policies

Para 20 of AS 21 mentions that consolidated financial statements shall be prepared using uniform accounting policies for like transactions and other events in similar circumstances

If any company in the same group uses accounting policies other than those adopted in consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments should be made.

If it is not practicable to use uniform accounting policies in preparing the consolidated financial statements, the fact should be disclosed together with the proportions of items to which different accounting policies have been applied.

For example, if the subsidiary company follows LIFO method for valuation of inventories and the holding company follows FIFO method, the financial statement of subsidiary company should be restated by adjusting the value of inventories to bring the same in line with the valuation procedure adopted by the holding company. Then only consolidation can be considered.

Illustration 14

Consider the following summarized balance sheets of subsidiary B Ltd.:

	2015 ₹	2016 ₹		2015 ₹	2016 ₹
<i>Share-Capital</i>			<i>Fixed Assets</i>		
<i>Issued & subscribed</i>			<i>Cost</i>	3,20,000	3,20,000
<i>5,000 equity shares</i>			<i>Less: Accumulated</i>		
<i>of ₹ 100 each</i>	5,00,000	5,00,000	<i>depreciation</i>	(48,000)	(96,000)
<i>Reserves & Surplus</i>				2,72,000	2,24,000
<i>Revenue reserves</i>	2,86,000	7,14,000	<i>Investments</i>		
<i>Current Liabilities &</i>			<i>at cost</i>	—	4,00,000
<i>Provisions:</i>			<i>Current Assets:</i>		
<i>Trade Payables</i>	4,90,000	4,94,000	<i>Inventory</i>	5,97,000	7,42,000
<i>Bank overdraft</i>	—	1,70,000	<i>Trade Receivables</i>	5,94,000	8,91,000
<i>Provision for taxation</i>	3,10,000	4,30,000	<i>Prepaid Expenses</i>	72,000	48,000
			<i>Cash at Bank</i>	51,000	3,000
	<u>15,86,000</u>	<u>23,08,000</u>		<u>15,86,000</u>	<u>23,08,000</u>

Consider also the following information:

- (a) B Ltd. is a subsidiary of A Ltd. Both the companies follow calendar year as the accounting year.
- (b) A Ltd. values inventory on LIFO basis while B Ltd. used FIFO basis. To bring B Ltd.'s values in line with those of A Ltd. its value of inventory is required to be reduced by ₹ 12,000 at the end of 2015 and ₹ 34,000 at the end of 2016.
- (c) Both the companies use straight-line method of depreciation. However, A Ltd. charges depreciation @ 10%.
- (d) B Ltd. deducts 1% from Trade Receivables as a general provision against doubtful debts.
- (e) Prepaid expenses in B Ltd. include advertising expenditure carried forward of ₹ 60,000 in 2015 and ₹ 30,000 in 2016, being part of initial advertising expenditure of ₹ 90,000 in 2015 which is being written off over three years. Similar amount of advertising expenditure of A Ltd. has been fully written off in 2015.

Restate the balance sheet of B Ltd. as on 31st December, 2016 after considering the above information, for the purpose of consolidation. Such restatement is necessary to make the accounting policies adopted by A Ltd. and B Ltd. uniform:

Solution

Adjusted revenue reserves of B Ltd.:

	₹	₹
Revenue reserves as given		7,14,000
Add: Depreciation over charged (₹ 16,000 × 2)	32,000	—
Provision for doubtful debts [8,91,000 / 99 X 1]	<u>9,000</u>	<u>41,000</u>
		7,55,000
Less: Reduction in value of Inventory	34,000	
Advertising expenditure to be written off	<u>30,000</u>	<u>(64,000)</u>
Adjusted revenue reserve		<u>6,91,000</u>

Restated Balance Sheet of B Ltd. as at 31st December, 2016

Particulars	Note No.	(₹)
I. Equity and Liabilities

2.15 Chain Holding

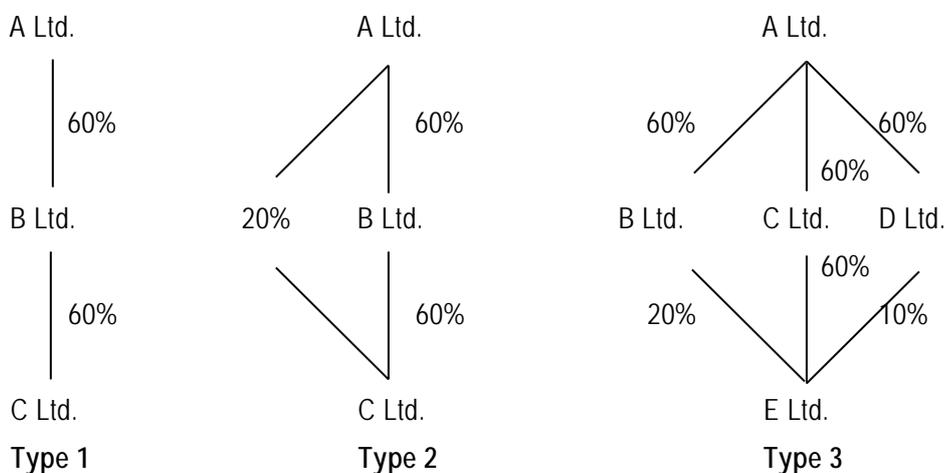

Suppose that Company B is subsidiary of Company A and Company C is subsidiary of Company B.

By virtue of Section 2 (86) of the Companies Act, 2013* C becomes subsidiary of Company A. Popularly, Company C is called sub-subsidiary of Company A and the type of holding mentioned in Section 4(l)(c) is called chain holding. Chain holding may take various forms

* Section 4(1)(c) of the Companies Act, 1956.

In Type 1 the parent company does not hold any share in the sub-subsidiary. In Type 2 both the parent and subsidiary hold shares of sub-subsidiary. In Type 3 more than one subsidiaries of the parent company hold shares in the sub-subsidiary. There may be different other types of chain holding.

Treatment of Capital Profit of Sub-subsidiary in the Consolidation Process: There are two approaches, namely, **direct method and indirect method**. Capital Profit of the sub-subsidiary should be firstly apportioned between minority interest and group interest. The group interest should be taken directly for calculation of goodwill/capital reserve. This is called direct method.

Let us take an example. A Ltd.; holds 60% shares of B Ltd. and 20% shares of C Ltd.; B Ltd. holds 60% shares of C Ltd. Total profit of C Ltd. is ₹ 1,00,000 of which pre-acquisition profit is ₹ 40,000.

As per direct method capital profit (i.e., pre-acquisition profit in this case) should be apportioned as follows:

$$₹ 40,000 \times \frac{20}{100} = ₹ 8,000 \text{ to minorities of C Ltd.}$$

$$₹ 40,000 \times \frac{80}{100} = ₹ 32,000 \text{ to the group which is to be considered for calculating goodwill or capital reserve.}$$

For computation of goodwill / capital reserve for the purpose of consolidation, cost of group investments is compared to their face value. Cost of investments should be arrived at after adjusting pre-acquisition profit/loss relating to such investments. So direct approach appears to be more logical.

In the indirect approach, pre-acquisition profit/loss is apportioned among minorities of the sub-subsidiaries and to the respective group companies. From the shares of respective group companies, their minority interests are deducted and the parent company gets its indirect shares. In the example given above A Ltd.'s direct shares to C Ltd.; is to the extent of 20% and

5.46 Financial Reporting

indirect through B Ltd. is 60% of 60% i.e. 36%. So while computing goodwill or capital reserve for the purpose of consolidation (only 20% + 36%) i.e. 56% of the capital profit of C Ltd. is considered. In other words, the calculation will be as follows:

$$₹ 40,000 \times \frac{20}{100} = ₹ 8,000 \text{ to minorities of C Ltd.}$$

$$₹ 40,000 \times \frac{20}{100} = ₹ 8,000 \text{ to A Ltd.}$$

$$₹ 40,000 \times \frac{60}{100} = ₹ 24,000 \text{ to B Ltd.}$$

Out of B Ltd.'s share of ₹ 24,000 A Ltd. will get 60%. This means A Ltd.'s indirect share in capital profit of C Ltd. is ₹ 24,000 × 60% i.e. ₹ 14,400. In total ₹ 22,400 (14,400 + 8,000) is to be taken for computation for goodwill/capital reserve. This comes to 56% of ₹ 40,000.

Illustration 15

Prepare the Consolidated Balance Sheet as on December 31, 2016 of group of companies A Ltd., B Ltd. and C Ltd. Their summarized balance sheets on that date are given below:

Liabilities	A Ltd. ₹	B Ltd. ₹	C Ltd. ₹
Share Capital (share of ₹ 100 each)	1,25,000	1,00,000	60,000
Reserves	18,000	10,000	7,200
Profit & Loss A/c	16,000	4,000	5,000
Trade Payables	7,000	3,000	—
A Ltd.	—	7,000	—
C Ltd.	<u>3,300</u>	<u>—</u>	<u>—</u>
Total	<u>1,69,300</u>	<u>1,24,000</u>	<u>72,200</u>
Assets			
Fixed Assets	28,000	55,000	37,400
Investments in shares-			
B Ltd.	85,000	—	—
C Ltd.	—	53,000	—
Inventory	22,000	6,000	—
B Ltd.	8,000	—	—
Trade Receivables	26,300	10,000	31,500
A Ltd.	<u>—</u>	<u>—</u>	<u>3,300</u>
Total	<u>1,69,300</u>	<u>1,24,000</u>	<u>72,200</u>

Other information:

- (i) A Ltd. holds 750 shares in B Ltd. and B Ltd. holds 400 shares in C Ltd. These holdings were acquired on 30th June, 2016
- (ii) On 1st January, 2016 the following balances stood in the books of B Ltd. and C Ltd.

	B Ltd. ₹	C Ltd. ₹
Reserves	8,000	6,000
P & L Account	1,000	1,000

- (iii) C Ltd., sold goods costing ₹ 2,500 to B Ltd. for ₹ 3,100. These goods still remain unsold.

Solution

Workings Notes:

Shareholding Pattern

B Ltd's Holding	NA	400
Minority Holding	250	200
Minority %	25 %	33.33%

(1) Analysis of Profits:

	Capital Profit ₹	Revenue Reserve ₹	Revenue Profit ₹
C Ltd.			
Reserve on 1.1.2016	6,000	—	—
Additional Reserve created in 2016 [7,200 – 6,000] = 1,200	600 [1,200 X ½]	600 [1,200 X ½]	—
P & L A/c, Balance on 1.1.2016	1,000	—	—
Profit for 2016 [5,000 – 1,000] = 4,000	2,000 <u>[4,000 X ½]</u>	—	2,000 <u>[4,000 X ½]</u>
	9,600	600	2,000
Due to outsiders, 1/3	3,200	200	667
Share of B Ltd. (2/3)	<u>6,400</u>	<u>400</u>	<u>1,333</u>

5.48 Financial Reporting

B Ltd.			
From C Ltd.	6,400*	400	1,333
Reserve on 1.1.2016	8,000	—	—
Additional Reserve created in 2016 [10,000-8,000] = 2,000	1,000 [2,000 X ½]	1,000 [2,000 X ½]	—
Profit and Loss A/c:			
Balance on 1.1.2016	1000	—	—
Profit during 2016 [4,000-1,000] = 3,000	<u>1,500</u> [3,000 X ½]	—	<u>1,500</u> [3,000 X ½]
	17,900	1,400	2,833
Due to outsiders (1/4)	<u>4,475</u>	<u>350</u>	<u>708</u>
Share of A Ltd.	<u>13,425</u>	1,050	2,125
A Ltd.		18,000	<u>16,000</u>
			18,125
Less: Inventory Reserve (2/3)		—	<u>(400)</u>
		<u>19,050</u>	<u>17,725</u>

Notes:

- (i) During 2016, ₹ 1,200 has been added to the Reserves of C Ltd., and ₹ 2,000 to the Reserves of B Ltd. The profit must have been earned during the whole of the year; hence, half of these figures (i.e., up to 30.6.2016) must be considered as capital pre-acquisition and the remaining revenue.
- (ii) Total unrealised profit is ₹ 600, i.e., ₹ 3,100 less ₹ 2,500.

(2) Minority Interest: [From the calculations above]

	<i>B Ltd.</i>	<i>C Ltd.</i>
	₹	₹
Share Capital	25,000	20,000
Share of Capital Profits	4,475	3,200
Share of Revenue Reserves	350	200
Share of Revenue Profits	708	667
Less: Inventory reserve	—	<u>(200)</u>
Total	<u>30,533</u>	<u>23,867</u>
Grand Total		<u>54,400</u>

*This problem has been solved by following 'indirect approach'. All subsequent illustrations are solved by following 'direct approach'.

(3) Cost of Control:

Amount paid:		
A Ltd.	85,000	
B Ltd.	<u>53,000</u>	1,38,000
Less: Par value of shares in:		
B Ltd.	75,000	
C Ltd.	40,000	
Capital Profits*	<u>13,425</u>	<u>(1,28,425)</u>
Cost of Control*/ Goodwill		<u>9,575</u>

- (4) Since X Ltd. shows ₹ 8,000 against B Ltd. whereas B Ltd., shows only ₹ 7,000 in favour of A Ltd., it must be assumed that B Ltd., has remitted ₹ 1,000 to A Ltd.; not yet received by A Ltd. The amount is in transit.
- (5) If capital profit is increased by ₹ 1,600 cost of control will be ₹ 7,975.

**Consolidated Balance Sheet of A Ltd.
and its subsidiaries B Ltd. and C Ltd.,
as on 31st December, 2016**

Particulars	Note No.	(₹)
I. Equity and Liabilities		
(1) Shareholder's Funds		
(a) Share Capital		1,25,000
(b) Reserves and Surplus	1	36,775
(2) Minority Interest (W.N 2)		54,400
(3) Current Liabilities

2.16 Treatment of Subsidiary Company having Preference Share Capital

If the holding company has some investments in the preference shares of subsidiary, the

carrying amount of such investments along with carrying amount of investments in equity shares of subsidiary company should be set off against the holding company's share in the equity of such subsidiary. The difference is treated as goodwill or capital reserve. The interest of minority shareholders of the subsidiary company will then include such portion of preference share capital of the subsidiary company which is not held by holding company.

However, if a subsidiary company has cumulative preference shares which are partly held outside the group, the holding company should compute its share of profits or losses of subsidiary after adjusting for the subsidiary's preference dividend attributable to minority shareholders, whether or not such dividends have been declared. By comparison, dividends in respect of non-cumulative shares are only recognized when declared.

2.17 Inter-Company Holdings

It is possible that the subsidiary company may also hold shares in the holding company. As per the proviso of section 19 of the Companies Act, 2013, the law would permit this if either the subsidiary company had already acquired the shares before the holding company acquired the shares in the subsidiary or it holds such shares as a trustee; or it holds such shares as the legal representative of a deceased member of the holding company. However, the subsidiary company would have **no voting rights at a meeting** of its holding company on the shares it acquired before the holding company acquired the shares in the subsidiary.

In such a situation, the calculation of the minority interest would have to be based on the fact that the subsidiary also has a claim on the profits of the holding company. The calculation will have to be made separately for revenue and capital profits since, otherwise, cost of control cannot be ascertained correctly.

For the purpose, such profits of the holding company as existed when the subsidiary company acquired the shares should be treated as capital profits. The calculation of the minority interest would involve an algebraical equation.

Illustration 15

You are given below the summarized balance sheets of two companies A Ltd. and B Ltd. as at 31-12-2016. Prepare their consolidated Balance Sheet.

Liabilities	A Ltd. ₹	B Ltd. ₹	Assets	A Ltd. ₹	B Ltd. ₹
Share Capital: (₹ 100 each)	5,00,000	2,00,000	Investment: 1,600 shares in B Ltd.	2,20,000	
Profits:			1,000 shares in A Ltd.		1,50,000
Capital profit	1,00,000	80,000	Sundry Assets	<u>8,30,000</u>	<u>2,40,000</u>
Revenue profit	3,00,000	50,000		<u>10,50,000</u>	<u>3,90,000</u>
Trade Payables	<u>1,50,000</u>	<u>60,000</u>			
	<u>10,50,000</u>	<u>3,90,000</u>			

5.52 Financial Reporting

Solution

A holds 1,600 shares out of 2,000 shares of B Ltd. i.e. $\frac{4}{5}$ th of B Ltd.

B holds 1,000 shares out of 5,000 shares of A Ltd. i.e. $\frac{1}{5}$ th of A Ltd.

Suppose:

A = Revenue Profits of A Ltd., and

B = Revenue Profits of B Ltd.

Then,

$$A = 3,00,000 + \frac{4}{5} B$$

$$B = 50,000 + \frac{1}{5} A$$

$$B = 50,000 + \frac{1}{5} (3,00,000 + \frac{4}{5} B) \text{ [Substituting for A]}$$

$$B = 50,000 + 60,000 + \frac{4}{25} B$$

$$B = 1,10,000 + \frac{4}{25} B$$

$$25B = 27,50,000 + 4B$$

$$21B = 27,50,000 \text{ or } B = 1,30,952$$

Minority interest in Revenue profits is $\frac{1}{5}$ of ₹ 1,30,952 or ₹ 26,190. Total revenue profits being ₹ 3,50,000 [3,00,000 + 50,000] for A Ltd. and B Ltd together, ₹ 3,23,810 [3,50,000 – 26,190] remains for the group.

Capital Profits:

$$A = 1,00,000 + \frac{4}{5} B$$

$$B = 80,000 + \frac{1}{5} A$$

$$B = 80,000 + \frac{1}{5} (1,00,000 + \frac{4}{5} B)$$

$$B = 80,000 + 20,000 + \frac{4}{25} B$$

$$B = 1,00,000 + \frac{4}{25} B$$

$$25B = 25,00,000 + 4B$$

$$21B = 25,00,000$$

$$B = 1,19,048$$

Minority Interest @1/5 would be ₹ 23,810.

Total being ₹ 1,80,000 for the group it would be ₹ 1,56,190

Total Minority interest:

	₹
Shares held by outsiders [2,00,000 X 1/5]	40,000
Revenue Profit	26,190
Capital Profit	<u>23,810</u>
	<u>90,000</u>

Cost of control:

	(₹)	
Amount paid by both companies		3,70,000
Less: Face Value:		
Shares in B Ltd.	1,60,000	
Shares in A Ltd.	1,00,000	
Capital Profits (₹ 1,19,048 – ₹ 23,810)	<u>95,238</u>	<u>(3,55,238)</u>
Goodwill		<u>14,762</u>

Alternative working note:

	A Ltd. ₹	B Ltd. ₹

2.18 Different Reporting Dates

For the purposes of preparing consolidated financial statements, the financial statements of all subsidiaries should, wherever practicable, be prepared:

- To the same reporting date; and
- For the same reporting period as of the parent.

When the reporting dates are different, the subsidiary often prepares, for consolidation purposes, statements as at the same date as that of the parent.

(Reference: Para 18 & 19 of AS 21)

When it is impracticable to do this, financial statements drawn up to different reporting dates may be used provided that difference in reporting dates is not more than six months.

However, adjustments should be made for the effects of significant transactions or other events that occur between the date of the subsidiary's financial statements and the date of the parent's financial statements. The length of the reporting periods and any difference in the reporting dates should be the same from period to period.

AS 21 does not define 'significant events and transactions', but they may include business combinations, asset impairments, and the crystallization of contingent liabilities. A potentially significant transaction or other event requires a careful analysis of the relevant facts and circumstances to determine if an adjustment is required.

2.19 Investment in the Debentures of the Subsidiary Company

For the purposes of preparing consolidated financial statements, debentures of subsidiary held by the holding company should be eliminated. Profit or loss arising on elimination shall be adjusted against Profit and Loss account of the holding company. No goodwill or capital reserve will be ascertained.

The following condensed balance sheets of H Ltd. and S Ltd. were prepared as on 31st December, 2016:

Assets	H Ltd. ₹	S Ltd. ₹
Goodwill	1,12,000	40,000
Plant & Machinery	95,000	50,400
Furniture	7,000	4,600
9,000 ordinary shares in S Ltd.	1,20,000	—
2,000 ordinary shares in H Ltd.	—	24,000
Inventory-in-trade	48,000	1,14,000
Trade Receivables	70,000	45,000
Cash at Bank	<u>17,000</u>	<u>13,000</u>
	<u>4,69,000</u>	<u>2,91,000</u>
Liabilities		
Share Capital		
Ordinary shares of 10 each	1,80,000	1,00,000
7½% Pref. shares of ₹ 10 each	1,50,000	80,000
Premium on ordinary shares	36,000	—
Reserves	26,000	30,000
Trade Payables	17,000	61,000
Profit & Loss Account	<u>60,000</u>	<u>20,000</u>
	<u>4,69,000</u>	<u>2,91,000</u>

Trade Payables of H Ltd. include ₹ 15,000 due to S Ltd. for goods supplied since the acquisition of the shares. These goods are charged at 10% above cost. The Inventory of H Ltd. include goods costing ₹ 33,000 purchased from S Ltd.

H Ltd. acquired the shares of S Ltd. on 1st July, 2016. As at the date of last preceding balance sheet of S Ltd., viz., 31st Dec., 2015; the plant and machinery stood in the books at ₹ 56,000, the reserve at ₹ 30,000 and the profit and loss account at ₹ 8,000. The plant was revalued by H Ltd. on the date of acquisition of the share of S Ltd. at ₹ 60,000 but no adjustments were made in the books of S Ltd. On 31st Dec., 2015, the debit balance of profit and, loss account was ₹ 22,750 in the books of H Ltd.

Both the companies have provided depreciation on all their fixed assets at 10% per annum. You are required to prepare a consolidated balance sheet on 31st Dec., 2016 and supporting schedule for computation.

Solution

Note: It is assumed that Preference shares given in the question are non-convertible in nature.

Illustration 23

Able Ltd. made an offer to acquire all the shares of Baker Ltd. at a price of ₹ 25 per share, to be satisfied by the allotment of five shares in Able Ltd. for every four shares in Baker Ltd.

By the date of expiration of the offer, which was on 1st January, 2017, share-holders owning 75% of the shares in Baker Ltd. accepted the offer and the acquisition was effective from that date.

The accounting date of Baker Ltd. was on 31st March in each year, but to conform to Able Ltd., accounts were prepared to 30th June, 2017, covering the fifteen months to the date.

The draft summarised accounts of the companies on 30th June, 2017 which do not include any entries regarding the acquisition of shares in Baker Ltd., were as follows:

Note: It is assumed that whole of the dividend of ₹ 41,250 declared by Able Ltd. will be appropriated from revenue, although part of that dividend is due to the ex-shareholders of Baker Ltd.

Illustration 24

In preparing the consolidated balance sheet of H Ltd. as on 31st March, 2017 you are required to show clearly what amount, if any, you would include in respect of W Ltd. with regard to:

- (a) Cost of control/reserve;
- (b) Profit or loss; and
- (c) Minority interest.

under each of the following assumptions :

- (i) 48,000 of the shares then in issue of W Ltd. were acquired at a cost of ₹ 75,000 on 1st June, 2014 H Ltd. participated in the dividend of ₹ 8,000.
- (ii) 40,000 of the shares then in issue of W Ltd. were acquired at a cost of ₹ 60,000 on 31st March, 2015; H Ltd. participated in the bonus issue but not in the dividend of ₹ 9,000.
- (iii) 60,000 of the shares then in issue of W Ltd. were acquired at a cost of ₹ 80,000 on 1st October, 2016; H Ltd. did not participate in the dividend of ₹ 6,000.

The balance sheet of W Ltd. as on 31st March, 2017 showed:

	₹
Share Capital, Authorised & Issued of ₹ 1 each	80,000
Undistributed profits	24,000
7% Debentures	40,000

The Profit & Loss Appropriation Accounts, for four years ended 31st December, 2016 were as follows:

	2013-2014	2014-2015	2015-2016	2016-2017
	₹	₹	₹	₹
Balance at the beginning of the year	16,000	22,000	43,000	28,000
Bonus issue of one for four				

5.90 Financial Reporting

- 1st April, 2015			<u>16,000</u>	
			27,000	
Profit for the year(loss)	<u>14,000</u>	<u>30,000</u>	<u>7,000</u>	<u>4,000</u>
	30,000	52,000	34,000	24,000
Dividends	<u>8,000</u>	<u>9,000</u>	<u>6,000</u>	<u>Nil</u>
Balance carried forward	<u>22,000</u>	<u>43,000</u>	<u>28,000</u>	<u>24,000</u>

Solution

Amounts to be included in the Consolidated Balance Sheet of H Limited as on 31st March, 2017 in respect of W Limited:

Share Capital before bonus issue $\frac{80,000}{5} \times 4 = ₹ 64,000$ or ₹ 80,000 – ₹ 16,000

(i) (a) Goodwill / Cost of Control:

	₹	₹
Cost of 48,000 shares on 1st June, 2014		75,000
Less: Dividends from pre-acquisition profits:		
$\frac{48}{64} \times 8,000$	6,000	
$\frac{48}{64} \times \frac{2}{12} \times 9,000$	<u>1,125</u>	<u>(7,125)</u>
Cost of Investment	(a)	<u>67,875</u>
Nominal value of shares		48,000
Proportion of pre-acquisition profit as at 31st March, 2014	22,000	
Earned in 2014-2015 less dividend $\left[\frac{2}{12} \times 21,000 \right]$	<u>3,500</u>	
	<u>25,500</u>	
H Ltd.'s share ₹ 25,500 × $\frac{48}{64}$		<u>19,125</u>
	(b)	<u>67,125</u>
Goodwill ₹ (67,875 – 67,125)		<u>750</u>

(b) Consolidated Profit & Loss balance

	₹	₹	₹
Profit & Loss Account as per Balance Sheet			24,000
Minority Interest: $\frac{20}{80} \times 24,000$		6,000	
Capital Profit:			

Pre-acquisition profit	25,500		
Less: Capitalised for bonus issue	<u>(16,000)</u>		
	<u>9,500</u>		
Share of H Ltd.: $\frac{60}{80} \times 9,500$		<u>7,125</u>	<u>13,125</u>
Balances for Consolidation			<u>10,875</u>

(c) *Minority Interest*

Share Capital (1/4)	20,000
Profit & Loss Account	<u>6,000</u>
	<u>26,000</u>

This answer assumes that 2/12th of the dividends for 2014-2015 and capitalisation for the bonus issue both came from pre-acquisition profits.

(ii) (a) *Cost of Control / Goodwill.*

	₹	₹

2.21 Disposal of a Subsidiary

The results of operations of a subsidiary with which parent-subsidiary relationship ceases to exist are included in the consolidated statement of profit and loss until the date of cessation of the relationship.

Calculation of gain or loss on disposal

On disposal of a subsidiary, the gain or loss on disposal is recognized in the consolidated statement of profit and loss, and is calculated as the aggregate of:

The difference between the proceeds of disposal of the subsidiary and the carrying amount of its assets less liabilities as of the date of disposal;

The cumulative amount of any exchange differences that relate to the subsidiary (non-integral operations) recognized in equity, in accordance with "AS 11 The Effect of Changes in Foreign Exchange Rates".

For the purposes of the disposal calculation, the carrying amount of the subsidiary would include any amount of goodwill carried on the balance sheet in respect of the subsidiary.

Partial disposals

When part of an investment in a subsidiary is sold during the reporting period, the status of the investment immediately after the disposal should determine the accounting. For example:

- If a parent sells a portion of its investment in a subsidiary but still retains a controlling interest, the consolidated financial statements at the end of the period should include the assets, liabilities and operations of the subsidiary and reflect the new minority interest from the date of the transaction: The profit or loss on disposal should be transferred to profit and loss account of holding company.
- If the parent sells a controlling interest in the subsidiary but still retains significant influence over the enterprise, that remaining investment should be reflected in the balance sheet at the end of the period as a single line item using the equity method in accordance with AS 23 Accounting for Investments in Associates in the Consolidated Financial Statements. The subsequent results of operations should also be reported using the equity method. If the disposal qualifies as discontinuing operation, presentation of the discontinuing operation should follow AS 24 Discontinuing Operations; and
- When almost all of a subsidiary is sold (except for an interest which does not allow the parent to exert significant influence over the subsidiary) and if the sale of the subsidiary

qualifies as a discontinuing operation, presentation of the discontinuing operation should follow AS 24 Discontinuing Operations.

In a parent's separate financial statement, an investment in subsidiaries should be accounted for in accordance with Accounting Standard (AS) 13, Accounting for Investments, from the date the enterprise ceases to be a subsidiary and does not become an associate*.

The carrying amount of the investment at the date it ceases to be a subsidiary is regarded as cost thereafter.

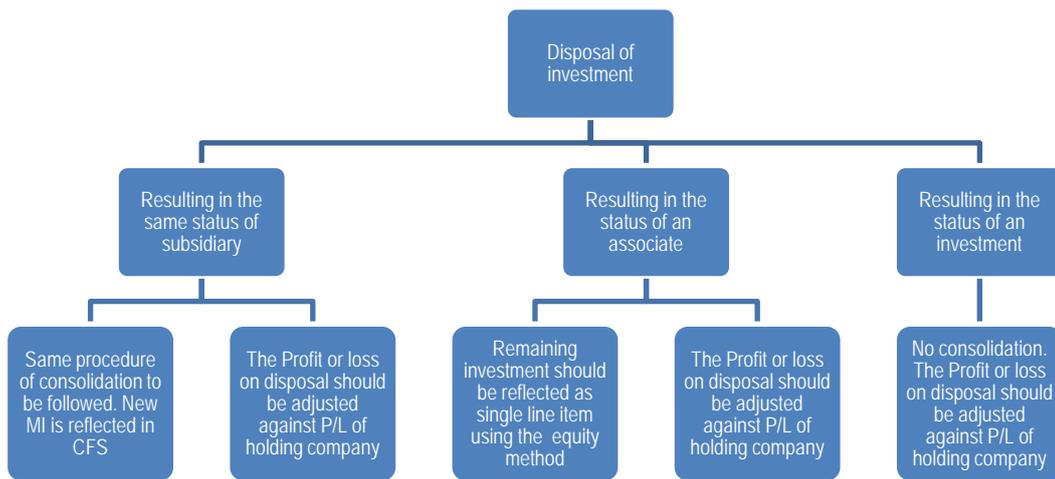

Illustration 27

From the following summarised Balance Sheets of A Ltd. and its subsidiary B Ltd., prepare a consolidated Balance Sheet as on 31st March, 2017.

Equity and Liabilities	A Ltd. ₹	B Ltd. ₹	Assets	A Ltd. ₹	B Ltd. ₹
Share Capital			Sundry Assets	93,000	32,000
Equity Shares of ₹ 10 each	1,00,000	20,000	Shares in B Ltd.		
Profit on sale of shares	3,000		1,200 shares at ₹ 15 each	18,000	
Profit and Loss A/c					

* Accounting Standard (AS) 23, 'Accounting for Investments in Associates in Consolidated Financial Statements', defines the term 'associate' and specifies the requirements relating to accounting for investments in associates in Consolidated Financial Statements.

5.100 Financial Reporting

Total	<u>3,17,500</u>

2.22 Foreign Subsidiaries

For consolidating foreign subsidiaries, the first step is to convert the figures of foreign subsidiary into reporting currency on the basis of rules as prescribed by AS 11 (revised 2003), "The Effects of Changes in Foreign Exchange Rates". The amount of exchange difference is calculated as the balancing figure, which is accounted for as post-acquisition profit/loss. After such conversion, the consolidation is done in usual manner.

UNIT 3: TREATMENT OF INVESTMENT IN ASSOCIATES IN CONSOLIDATED FINANCIAL STATEMENTS

3.1 Meaning of Associates

As per Accounting Standard 23, an associate is an enterprise in which an investor has significant influence and which is neither a subsidiary nor a joint venture of the investor. 'Significant influence' means the power to participate in the financial and operating policy decisions of the investee, but the investor does not have control over those policies.

However, Section 2(6) of the Companies Act, 2013 states that 'associate company', in relation to another company, means a company in which that other company has a significant influence, but which is not a subsidiary company of the company having such influence and not includes a joint venture company. 'Significant influence' means control of atleast twenty percent of total share capital (paid-up equity share capital and convertible preference share capital), or of business decisions under an agreement.

Indicators of significant influence

Significant influence may be gained by the investor by virtue of share ownership, statute or agreement.

When an investor exercises significant influence over the investee, one or more of the following indicators is usually present:

- representation on the board of directors or corresponding governing body of the investee;
- participation in policy making processes;
- material transactions between the investor and the investee;
- interchange of managerial personnel; or
- provision of essential technical information.

Significant Influence - Holding 20% or more of voting power

As a general rule, significant influence is presumed to exist when an investor holds, directly or indirectly through subsidiaries, 20% or more of the voting power of the investee.

As with the classification of any investment, the substance of the arrangement in each case will need to be considered. If it can be clearly demonstrated that an investor holding 20% or more of the voting power of the investee does not have significant influence, the investment will not be accounted for as an associate.

As substantial or majority ownership by another investor does not necessarily preclude an investor from having significant influence.

If the investor holds, directly or indirectly through subsidiaries, less than 20% of the voting power of the investee, it is presumed that the investor does not have significant influence, unless such influence can be clearly demonstrated. The presence of one or more of the indicators as above may indicate that an investor has significant influence over a less than 20% owned corporate investee.

Similarly, the definition of an associate in the 2013 Act is based on control of business decisions as compared to the concept of power to participate under AS 23. The 2013 Act sets a threshold of 20 percent ownership of total share capital and hence does not consider influence over voting power, or any other manner in which significant influence may be established. AS 23 envisages situations in which significant influence may be demonstrated without meeting the 20 percent threshold which are not addressed in the 2013 Act.

3.2 Accounting Method for Associates

AS 23 suggests equity method of accounting for investments in associates. Under equity method of accounting investment is initially recorded at cost, identifying any goodwill/ capital reserve arising at the time of acquisition. The carrying amount of the investment is adjusted thereafter for the post-acquisition change in investor's share of net assets in the investee. Distributions received from the investee reduce the carrying amount of the investment. The investor's share in the operational result of the investee is reflected in the consolidated statement of profit and loss.

The following procedure should be followed:

- Investment is initially recorded at cost. Subsequently, the carrying amount is increased on the basis of share of profit or decreased on the basis of share of loss in the associate.
- Step (1): Find out value of investments on the basis of proportionate value of net assets of the investee;
- Step (2): Find out goodwill or capital reserve arising out of the purchase consideration. If the purchase price is above the value of investments determined in step (1) then there is goodwill and if the purchase price is less than the value of the investments determined in step (1) then there is capital reserve.
- Step (3): Goodwill or capital reserve as determined in step (2) should be included in the carrying amount of the investments with a separate disclosure. On the contrary, investments are recognised at purchase price as per AS 13 without disclosing goodwill/capital reserve.

Goodwill/capital reserve can be disclosed within bracket below the "Investments in Associates" in the following style and accumulated income which was not earlier recognized should be added to value of investments for first time consolidation with corresponding credit to consolidated reserve.

Investments

Long Term Investments in Associates – ₹ at original cost

[including ₹..... goodwill/capital reserve (previous year ₹.....) arising on acquisition of associates]

Add: Accumulated income from Associates.

- Unrealised profit or loss resulting from transactions between the investor (and its

5.108 Financial Reporting

consolidated subsidiary) and the associate should be eliminated to the extent of interest of the investor in the associate.

- The carrying amount of investment in an associate is reduced to recognise decline in the value of investments computed in terms of proportionate net assets of the investee.
- Applying the logic of consolidation unrealized profit arising out of intra-group transactions should be eliminated.

3.3 Non-application of Equity Method

The general rule is that investments in associates are accounted for using the equity method of accounting. If, however, any of the two conditions under-mentioned are fulfilled, the investment is not accounted for using the equity method but is accounted for in accordance with AS 13 'Accounting for Investments' with disclosure of the reasons for not applying the equity method in accounting for investments;

- (1) when an investment is acquired for the purpose of disposal in the near future, i.e., as short term investments; and
- (2) there is severe long term restriction on fund transfer by the associate to the investor.

3.4 Treatment of Change in Equity of Associate not arising out of Profit and Loss Account

The situation may arise that change in equity of the associate which are not through profit and loss account.

For example, the associate may revalue its fixed assets and create revaluation reserve. In such cases, increase/decrease in the value of investments should be directly added to/subtracted from the carrying amount of investments with corresponding credit/debit to the balance of the consolidated profit and loss account in the balance sheet. This adjustment should not be routed through consolidated profit and loss account.

Illustration 1

The draft consolidated balance sheet of Helpful Ltd. group as at 31.03.2017 is given below:

Liabilities	₹ in 000	Assets	₹ in 000
Share Capital	1,200	Fixed Assets	3,000
Capital Reserve	30	Investment in Need Ltd.	180
Profit & Loss A/c	875	Investment in Desire Ltd.	375
Minority Interest	450	Current Assets	500
Non-current liabilities	900		
Current Liabilities	600		
	4,055		4,055

Helpful Ltd. acquired 25% stake in Need Ltd. for ₹ 1.80 lakh and 40% stake in joint venture Desire Ltd. for ₹ 3.75 lakh on 01.01.2016. Profit & Loss A/c balances of Need Ltd. and Desire Ltd. on that date were ₹ 2 lakh and ₹ 3 lakh respectively.

Summarised balance Sheets of Need Ltd. and Desire Ltd. as at 31.12.2016 are given below:

Liabilities	Need Ltd. ₹ in 000	Desire Ltd. ₹ in 000	Assets	Need Ltd. ₹ in 000	Desire Ltd. ₹ in 000
Share Capital	500	600	Fixed Assets	600	800
Profit & Loss A/c	300	400	Current Assets	400	700
Non-current Liabilities	100	150			
Current Liabilities	100	350			
	1,000	1,500		1,000	1,500

Earnings of Need Ltd. for the first quarter 2017 was ₹ 32,000. There were no changes in long term assets and liabilities. Current assets and liabilities increased during the period by ₹ 27,000 and ₹ 18,000 respectively.

In first quarter of 2017, Desire Ltd. redeemed debentures of ₹ 1 lakh at par (standing in the books as non-current liability) and earned ₹ 40,000. Current assets and liabilities increased during the period by ₹ 38,000 and ₹ 25,000 respectively.

Adjust the draft consolidated balance sheet if necessary.

To Current Liabilities			150	40% of 375
To Investment in Desire Ltd.			416	40% of 1,040

UNIT 4: TREATMENT OF INVESTMENT IN JOINT VENTURES IN CONSOLIDATED FINANCIAL STATEMENTS

Joint venture is defined as a contractual arrangement whereby **two or more parties undertake an economic activity, which is subject to joint control.**

Business entities, in their process to achieve improved performance and to provide value addition to stakeholders, exert themselves in establishing various forms of business relationships to have either access or control over the economic resources of other business entities. Joint ventures are one of such form of business relationship. Such relations are made either to promote trade, or to gain access to new markets.

Joint venture is controlled by two or more venturers. Additionally, there can also be investors who do not have control. By joint venture, its co-venturers who expect to achieve some common purpose or benefit. In India, Accounting Standard 27 on "Financial Reporting of interests in Joint Ventures" deals with both separate financial statements and also with consolidated financial statements.

4.1 Scope Under AS 27

AS 27 should be applied in accounting for interests in joint ventures and the reporting of joint venture assets, liabilities, income and expenses in the financial statements of venturers and investors, regardless of the structures or forms under which the joint venture activities take place.

The requirements relating to accounting for joint ventures in consolidated financial statements, contained in AS 27 are applicable only where consolidated financial statements are prepared and presented by the venturer.

4.2 Forms of Joint Venture

AS 27 identifies three broad types of Joint Ventures-

- jointly controlled operations,
- jointly controlled assets and
- jointly controlled entities.

4.2.1 Jointly Controlled Operations

No separate establishment: The operation of some joint ventures involves the use of the assets and other resources of the venturers rather than the establishment of a corporation, partnership or other entity, or a financial structure that is separate from the venturers themselves.

Each venture uses its own assets and liabilities: Each venturer uses its own fixed assets and carries its own inventories. It also incurs its own expenses and liabilities and raises its own finance, which represent its own obligations.

Own employees: The joint venture's activities may be carried out by the venturer's employees

alongside the venturer's similar activities.

Sharing of common expenses and revenues: The joint venture agreement usually provides means by which the revenue from the jointly controlled operations and any expenses incurred in common are shared among the venturers.

An example of a jointly controlled operation is when two or more venturers combine their operations, resources and expertise in order to manufacture, market and distribute, jointly, a particular product, such as an aircraft. Different parts of the manufacturing process are carried out by each of the venturers.

Each venturer bears its own costs and takes a share of the revenue from the sale of the aircraft, such share being determined in accordance with the contractual arrangement.

4.2.2 Jointly Controlled Assets

Some joint ventures involve the joint control, and often the joint ownership, by the venturers of one or more assets contributed to, or acquired for the purpose of, the joint venture and dedicated to the purposes of the joint venture.

The assets are used to obtain economic benefits for the venturers. Each venturer may take a share of the output from the assets and each bears an agreed share of the expenses incurred.

An example of a jointly controlled asset is an oil pipeline jointly controlled and operated by a number of oil production companies.

Each venturer uses the pipeline to transport its own product in return for which it bears an agreed proportion of the expenses of operating the pipeline.

Another example of a jointly controlled asset is when two enterprises jointly control a property, each taking a share of the rents received and bearing a share of the expenses.

4.2.3 Jointly Controlled Entities

A jointly controlled entity is a joint venture which is established as a separate legal entity which can be in form of a corporation, partnership or other entity in which each venturer has an interest.

The entity operates in the same way as other enterprises, except that a contractual arrangement between the venturers establishes joint control over the economic activity of the entity.

4.3 Accounting Treatment

4.3.1 Jointly Controlled Operations

As per para 13 of AS 27, in respect of its interests in jointly controlled operations, a venturer should recognise in its separate financial statements and consequently in its consolidated financial statements:

- (a) the assets that it controls and the liabilities that it incurs; and
- (b) the expenses that it incurs and its share of the income that it earns from the joint venture.

Because the assets, liabilities, income and expenses are already recognised in the separate

5.114 Financial Reporting

financial statements of the venturer, and consequently in its consolidated financial statements, no adjustments or other consolidation procedures are required in respect of these items when the venturer presents consolidated financial statements.

The only accounting issue that arises is that the output from the project is to be shared among the venturers and, therefore, there must be some mechanism for specifying the allocation of the proceeds and the sharing of any joint expenses.

4.3.2 Jointly Controlled Assets

As per para 19 of AS 27, in respect of its interest in jointly controlled assets, a venturer should recognise, in its separate financial statements, and consequently in its consolidated financial statements:

- (a) its share of the jointly controlled assets, classified according to the nature of the assets;
- (b) any liabilities which it has incurred;
- (c) its share of any liabilities incurred jointly with the other venturers in relation to the joint venture;
- (d) any income from the sale or use of its share of the output of the joint venture, together with its share of any expenses incurred by the joint venture; and
- (e) any expenses which it has incurred in respect of its interest in the joint venture.

Because the assets, liabilities, income and expenses are already recognised in the separate financial statements of the venturer, and consequently in its consolidated financial statements, no adjustments or other consolidation procedures are required in respect of these items when the venturer presents consolidated financial statements.

4.3.3 Jointly Controlled Entities

A jointly controlled entity maintains its own accounting records and prepares and presents financial statements in the same way as other enterprises in conformity with the requirements of AS 27 applicable to that jointly controlled entity.

Separate Financial Statements of a Venturer

In a venturer's separate financial statements, interest in a jointly controlled entity should be accounted for as an investment in accordance with Accounting Standard (AS) 13, Accounting for Investments.

Consolidated Financial Statements of a Venturer

In its consolidated financial statements, a venturer should report its interest in a jointly controlled entity using proportionate consolidation except

- (a) an interest in a jointly controlled entity which is acquired and held exclusively with a view to its subsequent disposal in the near future; and
- (b) an interest in a jointly controlled entity which operates under severe long-term restrictions that significantly impair its ability to transfer funds to the venturer.

Interest in such a jointly controlled entity should be accounted for as an investment in accordance with Accounting Standard (AS) 13, Accounting for Investments.

An interesting feature of Schedule III (that provides general instructions for preparation of financial statements) is that it requires disclosure, for each joint venture, of amounts 'as per proportionate consolidation/investment as per the equity method', whereas AS 27 on Accounting for Joint Ventures does not permit accounting for jointly controlled entities as per equity method.

4.4 Proportionate Consolidation Method

Separate line Items: AS 27 defines proportionate consolidation as a method of accounting and reporting whereby a venturer's share of each of the assets, liabilities, income and expenses of a jointly controlled entity is reported as separate line items in the venturer's financial statements.

Balance sheet and profit & loss account to include share of venturer: The application of proportionate consolidation means that the balance sheet of the venture includes its share of the assets that it controls jointly, and its share of the liabilities for which it is jointly responsible. The statement of profit and loss of the venture includes its share of the income and expenses of the jointly controlled entity.

4.4.1 Steps for Proportionate Consolidation

All the steps are similar to those of consolidation of Subsidiary except that when Consolidated Balance sheet is prepared; the venturer's (Investor) proportionate share of each asset and liability is added.

Step 1: Ascertain the date of Investment of venturer in Jointly Controlled Entities (JCE).

Step 2: Ascertain venturer's share of Interest in the Jointly Controlled Entities.

Step 3: Analyse profits of the Jointly Controlled Entities as pre-acquisition and post-acquisition with reference to date of acquisition.

Step 4: Ascertain the venturer's share of both pre-acquisition and post-acquisition profits of Jointly Controlled Entities analysed above.

Step 5: Ascertain Goodwill/Capital Reserve

A)	Cost of Investment		
	Amount invested	XXX	
	Less: Pre acquisition dividend	<u>XXX</u>	XXX
B)	Less: Venturer's share of net assets in JCE as at date of acquisition represented by venturer's share of:		
	(i) Share Capital	<u>XXX</u>	
	(ii) Pre acquisition profits	<u>XXX</u>	<u>XXX</u>
C)	Goodwill/Capital Reserve (Difference between A & B)		<u>XXX</u>

5.116 Financial Reporting

Steps 6: Elimination of Inter Company transactions.

Elimination of unrealized profit on unsold Inventory forming part of intra group transactions to be eliminated to the extent of venturer's stake.

Step 7: Reserves for Consolidated Balance Sheet

a)	Aggregate reserves for Consolidated Balance Sheet of holding company and subsidiaries as per AS 21 and AS 23 where applicable.	XXX
b)	Add: Venturer's share of post-acquisition profit (Step 4)	XXX
c)	Less: Venturer's share of unrealized profit (Step 6A)	<u>(XXX)</u>
		<u>XXX</u>

Step 8: Prepare Consolidated Balance Sheet

Liabilities

	Parents	Subsidiary (Say 80%) ₹	Associate	JCE (Say 50%)	Adj.	Consolidated
Share Capital	100%	--	--	--	Cancel Cross holding only	XXX
Reserves						Step 7

Miscellaneous Expenditure to the extent not written off	100%	-	-	-	-	XXX
						<u>XXX</u>
						<u>XXX</u>

4.5 Different Reporting Dates

- The financial statements of the jointly controlled entity used in applying proportionate consolidation are usually drawn up to the same date as the financial statements of the venturer.
- When the reporting dates are different, the jointly controlled entity often prepares, for applying proportionate consolidation, statements as at the same date as that of the venturer.
- When it is impracticable to do this, financial statements drawn up to different reporting dates - may be used provided the difference in reporting dates is not more than six months. In such a case, adjustments are made for the effects of significant transactions or other events that occur between the date of financial statements of the jointly controlled entity and the date of the venturer's financial statements.
- The consistency principle requires that the length of the reporting periods, and any difference in the reporting dates, are consistent from period to period.

4.6 Uniform Accounting Policies

- The venturer usually prepares consolidated financial statements **using uniform accounting policies** for the like transactions and events in similar circumstances.
- In case a jointly controlled entity uses accounting policies other than those adopted for the consolidated financial statements for like transactions and events in similar circumstances, **appropriate adjustments are made** to the financial statements of the jointly controlled entity when they are used by the venturer in applying proportionate consolidation.
- If it is not practicable to do so, that **fact is disclosed** together with the proportions of the items in the consolidated financial statements to which the different accounting policies have been applied.

4.7 Offsetting of Assets and Liabilities

While giving effect to proportionate consolidation, it is inappropriate to offset any assets or liabilities by the deduction of other liabilities or assets or any income or expenses by the deduction of other expenses or income, unless a legal right of set-off exists and the offsetting represents the expectation as to the realisation of the asset or the settlement of the liability.

4.8 Goodwill or Capital Reserve

Any excess of the cost to the venturer of its interest in a jointly controlled entity over its share of net assets of the jointly controlled entity, at the date on which interest in the jointly controlled entity is acquired, is recognised as goodwill, and separately disclosed in the consolidated financial statements. When the cost to the venturer of its interest in a jointly controlled entity is less than its share of the net assets of the jointly controlled entity, at the date on which interest in the jointly controlled entity is acquired, the difference is treated as a capital reserve in the consolidated financial statements. Where the carrying amount of the venturer's interest in a jointly controlled entity is different from its cost, the carrying amount is considered for the purpose of above computations.

4.9 Discontinuance of Proportionate Consolidation Method

A venturer should discontinue the use of proportionate consolidation from the date that:

- (a) it ceases to have joint control over a jointly controlled entity but retains, either in whole or in part, its interest in the entity; or
- (b) the use of the proportionate consolidation is no longer appropriate because the jointly controlled entity operates under severe long-term restrictions that significantly impair its ability to transfer funds to the venturer.

From the date of discontinuing the use of the proportionate consolidation, interest in a jointly controlled entity should be accounted for:

- (a) in accordance with Accounting Standard (AS) 21, Consolidated Financial Statements, if the venturer acquires unilateral control over the entity and becomes parent within the meaning of that Standard; and
- (b) in all other cases, as an investment in accordance with Accounting Standard (AS) 13, Accounting for Investments, or in accordance with Accounting Standard (AS) 23, Accounting for Investments in Associates in Consolidated Financial Statements, as appropriate. For this purpose, cost of the investment should be determined as under:
 - (i) the venturer's share in the net assets of the jointly controlled entity as at the date of discontinuance of proportionate consolidation should be ascertained, and

- (ii) the amount of net assets so ascertained should be adjusted with the carrying amount of the relevant goodwill/capital reserve (see paragraph 37) as at the date of discontinuance of proportionate consolidation.

4.10 Joint Venture cum Subsidiary

When an enterprise establishes joint control over an Entity, which is also a subsidiary of that enterprise as per AS 21, such entity is treated as subsidiary company as per AS 21 and should be accounted accordingly. However, the consolidation of such entity does not preclude other venturers from treating such entity as a Joint Venture under AS 27.

Illustration 1

Consolidated data of X Ltd., and its 100% subsidiary Y Ltd. and also information of Z Ltd. relating to the year end 31st March, 2017 is given below:

BALANCE SHEET

(₹ in thousand)

	<i>CBS of X Ltd. and its 100% Subsidiary Y Ltd.</i>	<i>Z Ltd.</i>
Issued ordinary share capital	2,000	1,000
Reserves	3,450	2,000
